Short Bio

I am an army veteran who owns the Mav data science consultant website. I have completed courses and worked on projects in data camp.

The data camp courses were mandatory graded assignments. I learned a lot from the data camp courses and they motivated me to pass my graduate program courses.

I like working as a freelance data scientist on UpWork website.

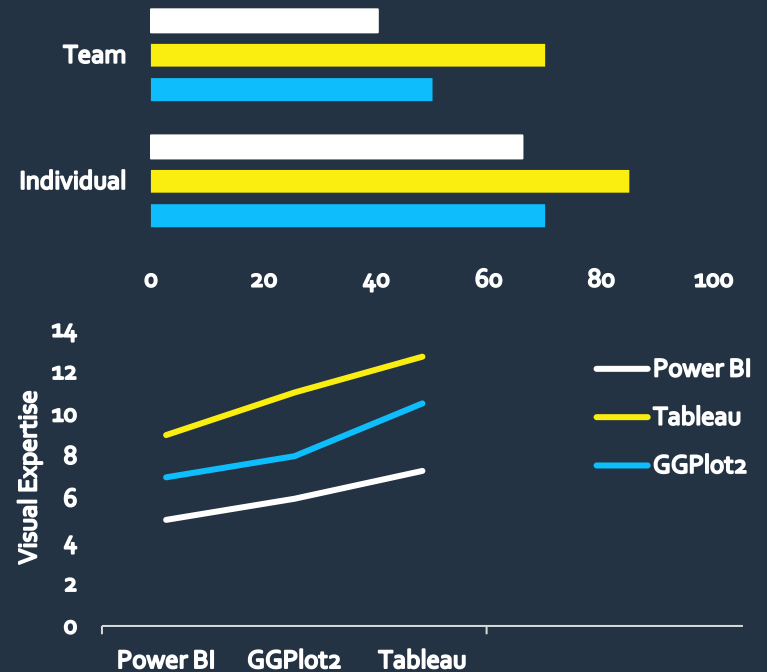

Education

2021
Bellevue University
MS in Data Science

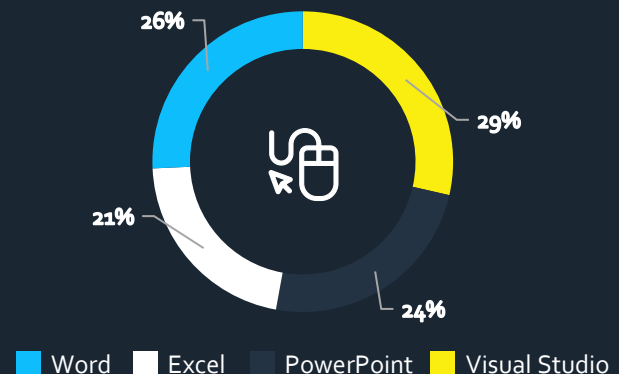

2019
National University
MS in Cyber Security IA

2013
University of MD, UC
BS in Investigative Forensics

Programming Expertise

Software Applications

PERSONAL

I like spending time with my twin daughters.

I enjoy spending time around lakes, rivers, and waterfalls.

I love to play games with my daughters and making them laugh with their toys.

I like to help people in need.

Remote Projects
