

JAYMIN PATEL

Data Analyst

NY, USA | +1 (347) 925-3345 | Email: jaymin871998@gmail.com | LinkedIn

SUMMARY

Results-driven and detail-oriented Data Analyst with 4+ years of experience in healthcare analytics, delivering actionable insights to enhance patient care, reduce operational costs, and ensure regulatory compliance. Proven expertise in data wrangling, visualization, statistical analysis, and predictive modeling using tools like SQL, Python, Power BI, Tableau, Excel, and R. Adept at working with HIPAA-compliant data systems, EMR/EHR platforms (Epic, Cerner), and collaborating with cross-functional teams to drive data-driven decisions in fast-paced environments.

EXPERIENCE

IBM, USA

Dec 2024 – Present

Data Analyst (Internship):

- Developed and maintained automated dashboards in Power BI and Tableau, enabling real-time visualization of member claims, provider performance, and utilization trends across 10+ regions.
- Extracted and transformed over 25M+ records monthly using complex SQL queries and stored procedures from various healthcare data warehouses and EMR systems.
- Partnered with clinical teams and actuaries to analyze risk adjustment data (HCC coding, RAF scores) and improve patient care coordination, reducing risk gaps by 19%.
- Conducted predictive modeling using Python (regression, clustering) to forecast hospital readmission risk with 85% accuracy, aiding in early intervention strategies.
- Ensured 100% compliance with HIPAA guidelines while handling PHI/PII data and implemented encryption and masking processes during ETL pipelines.
- Supported CMS reporting by generating datasets aligned with HEDIS, STARS, and NCQA quality metrics, reducing manual reporting time by 40%.
- Optimized SQL queries, reducing data extraction time by 30%, and automated Excel-based reporting with Python scripts, saving 20+ hours per week.
- Led training sessions for 15+ team members on data visualization best practices and dashboard storytelling.
- Collaborated with data engineers to improve data pipelines on AWS Glue and Redshift, enhancing pipeline reliability by 25%.

Lambda, India

Feb 2020 – July 2023

Data Analyst:

- Supported the development of healthcare dashboards tracking patient vitals, appointment no-shows, and medication adherence across 5 major hospitals.
- Wrote complex SQL queries to gather and clean data from Cerner EHR systems, improving reporting turnaround time by 30%.
- Assisted in data reconciliation between EMR records and billing systems, identifying discrepancies that led to recovery of over \$250K in billing errors.
- Built Python scripts for outlier detection and missing data handling in clinical datasets using NumPy and Pandas.
- Conducted cohort analysis for chronic disease patients, providing insight into treatment adherence trends that influenced care plan adjustments.
- Visualized clinical and operational KPIs using Power BI, helping hospital leadership track average length of stay (ALOS) and improve bed turnover rate.
- Documented data lineage and created standardized data dictionaries for better knowledge sharing and regulatory audits.
- Participated in Agile sprints and collaborated with product managers, clinicians, and QA teams for sprint-based delivery of analytical reports.
- Performed A/B testing and statistical modeling in Python and R to analyze user behavior and optimize product features, resulting in increased user retention.

SKILLS

- Methodology:** SDLC, STLC, Agile, Waterfall
- Agile & Scrum Frameworks:** Scrum, SAFe 5.0/6.0, Kanban, XP
- Programming Languages:** Python, R, SQL
- Visualization Tools:** Tableau, Power BI, QlikView, Excel (Pivot Table, VLOOKUP, Pivot Chart), Git, Microsoft Office Suite (PowerPoint, Word), Power Pivot, Power View, Power Query
- Databases:** MySQL, SQL Server, MongoDB, Cassandra, Oracle
- Big Data Technologies:** Hadoop, Spark, Kafka
- CI/CD:** Docker, Kubernetes, Jenkins, Shell Scripting
- Machine Learning:** Regression, Classification, Clustering, Decision Tree, Boosting & Bagging, NLP
- Project Management:** Jira, Trello, Service First, ServiceNow
- IDEs:** Visual Studio Code, Jupyter Notebook, RStudio, Atom
- Tools:** Git, GitHub, Microsoft Office Suite (PowerPoint, Excel, Word), Power Pivot, Power View, Power Query

EDUCATION

Masters in Business Analytics

Sept 2023 - May 2025

Montclair State University, New Jersey, USA

Bachelors in Mechanical Engineering

June 2011 - June 2015

GPRI, India
