- Salesforce Certified Platform Developer 1, Salesforce (Issued: January 2021)
- Salesforce Certified Administrator, Salesforce (Issued: September 2020)
- Salesforce Trailblazer Profile: [Salesforce Skills Profile](#).

PROFESSIONAL EXPERIENCE

Salesforce Developer,

September 2021 - September 2023

360 Degree Cloud Technologies Pvt. Ltd, Noida, India

- Developed and customized Salesforce applications using Apex, Lightning Web Components, and SOQL, resulting in a 40% reduction in manual work and improved workflow automation.
- Engineered, tailored, and maintained Apex classes, triggers, and batch jobs to implement scalable business logic, resulting in 30% improvement in application performance and data processing efficiency.
- Enhanced system security and user management by optimizing 100+ user roles and permission sets, ensuring 100% compliance with data access policies.

Salesforce Administrator,

September 2019 - August 2021

- Business processes were managed and enhanced using Flow, Process Builder, and Workflows, achieving a 30% increase in operational efficiency.
- Data Migration and Quality Assurance: Apex Data Loader achieved 95% accuracy in data migration. Worked on enhancing data administration and converting corporate needs into Salesforce applications.
- Architected and executed customized Salesforce solutions to enhance user experience, resulting in a 40% increase in customer engagement.

Data Analytics Intern,

September 2024 - May 2025

ONC, Los Angeles, US

- Built and managed ETL pipelines processing 1 million records per week, integrating data from 3 separate sources into a centralized CRM system; implemented data cleansing and deduplication to improve data quality by 25%.
- Constructed 5 dashboards and over 10+ reports for monitoring user activity and system performance, using Salesforce reporting tools and Tableau, reducing decision-making time for stakeholders by 40%.
- Collaborated with cross-functional teams to define and enforce data governance standards, establish naming conventions, and validation rules across 50 custom fields and objects, increasing data consistency and reducing data errors by 30%.

PROJECTS

Build Advanced CRM Analytics Dashboards,

July 2025 - August 2025

- Designed and deployed 3 interactive CRM Analytics dashboards integrating 5+ Salesforce datasets, visualizing KPIs for sales, marketing, and service teams.
- Configured 10+ lenses and filters to generate actionable insights, improving executive reporting efficiency by 35% and reducing manual analysis time by 40%.
- Implemented role-based access controls and data transformations, ensuring 100% data accuracy and security compliance across departments.
