CAREER OVERVIEW

I am a **Data Analyst** with 5 years of experience helping organizations in **technology consulting, healthcare, and manufacturing** make better decisions through data. I specialize in **SQL, Python, Tableau, Power BI, and Excel**, using these tools to design solutions that improve efficiency, compliance, and business performance. Whether it's building **ETL pipelines**, creating **dashboards**, or developing **predictive models**, my focus is on turning raw data into clear insights that drive results. I enjoy collaborating with stakeholders, simplifying complex problems, and delivering solutions that create measurable impact.

TECHNICAL SKILLS

- Programming & Analytics: **SQL, Python (Pandas, NumPy, Matplotlib, Seaborn), R**
- Visualization & BI Tools: **Tableau, Power BI, Excel (Advanced), DAX**
- Databases: **MySQL, PostgreSQL, MongoDB, Snowflake, ERP Systems**
- Cloud Platforms: **AWS (S3, Redshift), GCP (BigQuery), Azure (fundamentals)**
- Data Engineering: **ETL pipelines, Data Warehousing, Data Quality, Data Governance**
- Advanced Analytics: **Predictive Modeling, Regression, Classification, Clustering, EDA**
- Methodologies: **Lean Six Sigma, Root Cause Analysis, Agile/Scrum**

WORK EXPERIENCE

Associate Data Analyst – Tech Edge Analytics Inc., USA

August 2024 – Present

- Designed **interactive Tableau dashboards** that reduced reporting time by 40%, enabling faster decision-making for retail clients.
- Built **ETL pipelines in Python and SQL**, processing over 2M+ records weekly with improved accuracy.
- Integrated data from **AWS Redshift** and **GCP BigQuery**, delivering real-time analytics to business teams.
- Partnered with stakeholders to define **KPIs** and improve **data quality**, driving better BI adoption across departments.
- Implemented **predictive sales forecasting models**, improving planning accuracy by 15%.

Data Analyst – Optum Healthcare Solutions Ltd., India

September 2021 – July 2022

- Analyzed patient care and operational metrics, identifying inefficiencies that cut costs by 15%.
- Developed **Power BI dashboards** to track hospital readmission rates, patient satisfaction, and key healthcare KPIs.
- Ensured compliance with **HIPAA regulations** and data governance standards in healthcare reporting.
- Automated **SQL workflows** for EMR data extraction and validation, reducing errors and turnaround time.
- Delivered insights that supported leadership in **risk management** and **compliance reporting**.

Production Data Analyst – Precision Auto Components Pvt. Ltd., India

August 2019 – August 2021

- Conducted **statistical analysis** on production data to identify bottlenecks, improving efficiency by 12%.
- Built **Excel and Power BI dashboards** to monitor daily production, defect rates, and downtime.
- Collaborated with cross-functional teams to implement **Lean Six Sigma improvements**, reducing defects by 10%.
- Wrote optimized **SQL queries** for ERP reporting, improving data retrieval speed by 25%.
- Delivered insights that helped leadership reduce costs and strengthen operational forecasting.

EDUCATION

- **Master of Science in Information Systems** – University of Memphis, USA (August 2022 – April 2024)
- **Bachelor of Technology in Mechanical Engineering** – Kakatiya Institute of Technology and Science, India (August 2017 – August 2021)

PROJECTS

Hospitality Data Analytics Dashboard (Power BI)

- Designed an interactive BI dashboard to track KPIs like **Occupancy Rate, ADR, and RevPAR**.
- Used **Power BI Query Editor** for data cleaning and modeling, ensuring accuracy and consistency.
- Built **DAX measures** for revenue growth trends and KPI forecasting.
- Delivered insights that helped improve pricing strategies and operational efficiency.

Banking Domain Data Analytics Project

- Built an end-to-end analytics workflow using **SQL, Python, and Power BI**.
- Conducted **EDA** on customer demographics and transaction data to uncover behavior patterns.
- Designed dashboards for **churn analysis, loan performance, and profitability tracking**.
- Produced insights that supported **credit risk management, cross-selling strategies, and retention efforts**.
