

WORK EXPERIENCE

Private Sector Consulting Firm

Nov 2023 – Present

Project Manager

Remote

- Directed the end-to-end delivery of cross-functional projects, ensuring alignment with stakeholder expectations and achieving a 98% on-time delivery rate across high-priority initiatives.
- Collaborated with Business Analysts to define and document business requirements, driving the successful implementation of scalable solutions across multiple departments.
- Led cross-functional teams in refining existing workflows and identifying process improvements, enhancing overall team coordination and achieving faster resolution of project bottlenecks.
- Oversaw the QA team in implementing a risk-based testing strategy, resulting in the reduction of issues post-release and improved client satisfaction.
- Streamlined communication between technical and non-technical stakeholders by introducing visual dashboards, and concise reporting, increasing project transparency and stakeholder engagement.
- Optimized resource allocation across concurrent projects, leading to noticeable improvements in team productivity and efficiency while staying within budget constraints.

Affiliated Physicians

Feb 2021 – Nov 2023

Senior Director - IT Strategy

Remote

- Led the analysis of complex healthcare data to inform and shape government public health initiatives, driving strategic decisions for programs such as the COVID-19 public vaccination campaign.
- Partnered with corporate stakeholders, public health officials, and technical teams to design, implement, and optimize data reporting and analysis for over 30 vaccination sites, facilitating the administration of 1 million vaccinations.
- Provided comprehensive 24/7 IT support to a workforce of 250+ employees, streamlining support processes, maintaining rapid response times, and enhancing overall operational efficiency.
- Developed and maintained comprehensive dashboards in Salesforce to track key performance indicators, program outcomes, regulatory compliance, and delivered executive updates to senior leadership and stakeholders.
- Managed and mentored a 14-person IT team of analysts and application support specialists, fostering a collaborative environment, ensuring high-quality results, and promoting continuous professional development.
- Successfully managed the end-to-end implementation of a new HR system, coordinating cross-functional teams, overseeing project milestones and timelines, and ensuring seamless integration with existing workflows.
- Led the strategic re-rollout of IT hardware across the organization, ensuring all devices met compliance and security standards, thereby enhancing data protection and operational reliability.

RadNet
