

AARON YONAS TEGEGN

RESEARCH CONSULTANT

11420 Cedar Ridge Dr, Potomac MD | Email: aaronyonast@gmail.com | Cell: (301) 339-3560

PROFESSIONAL SUMMARY

A passionate and ambitious graduate public health professional, equipped with an MPH in Epidemiology from Emory University and a BS in Cell and Molecular Biology from Tulane University. Proven track record of data-driven decision-making, qualitative and quantitative analysis, and stakeholder analysis. Successful in my application of technical skills, including Microsoft Office, SAS, and R, I aim to leverage these skills and my inclination toward leadership and operational planning to promote global health initiatives and equity-focused scalable innovations, improving quality of life.

| ✓ Data Analytics & Organization | ✓ MS Office Data Visualization | ✓ Presentation/Public Speaking |
| ✓ Collaborative Team Leadership | ✓ Policy & System Assessment | ✓ Risk analysis |
| ✓ Survey Outcome Measurement | ✓ Stakeholder Engagement | ✓ Global Development Strategy |

WORK EXPERIENCE

Research Consultant; EVNoire

Atlanta, Georgia
March 2025 - Present

- Analyzing and writing a descriptive report on survey data for the Department of Energy, assessing 600 total respondents between Atlanta, Albany, and Savannah, GA, employing bivariate and multivariate data analysis
- Assessing a national survey brief, reviewing EV infrastructure needs, and driving for equitable policy decisions
- Evaluating progress weekly with research analysts, ensuring clear communication through conducted projects

Teaching Assistant; Department of Epidemiology, Emory University RSPH

Atlanta, Georgia
January 2025 - May 2025

- Mentored 146 Emory MPH students in Fundamentals of Epidemiology (EPI504)
- Supervising my group of 30 students, addressing questions and concerns, and relaying feedback to the course professor to foster a positive learning environment
- Provided timely feedback to students, grading their epidemiological models, calculations, and interpretations

Teaching Assistant; Department of Global Health, SUNY Downstate Health Sciences University

Brooklyn, New York
March 2025 - May 2025

- Remotely mentored 8 MPH students in Diseases Burden and Priorities in Global Health (CHSC 5317)
- Counseled during student office hours, reviewing presentation performances, assignment analyses, and written reports
- Promoted student feedback, modified course structure, and interactive content for future semesters
- Facilitated independently 3 guest health professional speaker presentations, reviewing lecture content, course expectations, and application, alongside technical support

Graduate Student Researcher; Department of Global Health, Emory University, RSPH

Atlanta, Georgia
October 2023 - January 2025

- Evaluated established research and methods of studies regarding mental health disparities among the Clarkston Ethiopian-Eritrean community of Georgia
- Organized and analyzed Qualtrics data of 196 respondents regarding self-evaluations of mental health perceptions amongst Ethiopians and Eritreans in Clarkston
- Facilitated 26 community leaders and mental health professionals in supporting Ethiopian-Eritrean immigrants in Atlanta's Clarkston community through 2 seminars, implementing research collected from the Qualtrics surveys
- Pioneered the first seminar, focusing on collected data by the Department of Global Health, regarding Ethiopian-Eritrean immigrant community perceptions of mental health in Clarkston
- Collaborated with a therapist and registered nurse to educate on non-judgmental communication skills, mental health resources, and a plan of action among attendees

Independent Contractor; AFL Enterprises, LLC

Denver, Colorado
May 2024 - July 2024

- Consulted and managed the NNOHA Teledentistry symposium, producing the agenda and activities, speaker outreach, formatting debriefs, and the comprehensive 6-month work plan, ensuring preparation and coordination
- Conducted research on administrative codes, ensuring up-to-date compliance across 13 US states regarding teledentistry
- Presented research on the Bay Area Regional Health Inequities Initiative framework of health equity

Researcher; Uganda National Health Laboratory Services (CPHL/UNHLS)

Kampala, Uganda
June 2022 – August 2022

- Conducted a cross-sectional study of 320 samples between two districts in West Nile, Uganda, analyzing SARS-CoV-2 antibody prevalence
- Performing lab assays and benchwork, ensuring accuracy and consistency throughout the research process
- Conducted remote work through data analysis in Excel, producing tables, graphs, and statistics, synopsizing regional variations while adjusting for confounders

Intern; Baylor Uganda Children's Hospital

Kampala, Uganda
June 2021– August 2021

- Analyzed 142 patient files and CD4 counts to assess HIV counseling efficacy and medication adherence. This included patient follow-up notes to improve HIV consultation quality
- Conducted individual and group counseling on HIV, medication adherence, and misconceptions, aiming to improve HIV-positive patients' quality of life
- Provided emergency care ward assistance, ensuring patient survival through the calculated distribution of limited resources and medication. Work included clinical shadowing, patient evaluation, and NGO outreach
- Shadowed general practitioners, doctors, and psychotherapists. Participated in doctor-patient consultations, gathering notes for post-consultation patient reports, including patient-reported outcomes and clinical data

Research Assistant; Uganda Viral Research Institute (UVRI)

Kampala, Uganda
May 2019-August 2019

- Conducted lab assays and benchwork analyzing polio samples in stool and water samples, ensuring accuracy and consistency in our research

EDUCATION

Emory Rollins School of Public Health (3.72 GPA) 2023-2025

Master of Public Health Graduate Student Conc. Epidemiology

- Recipient of the Outstanding Epidemiology Capstone Award

Tulane University, School of Science and Engineering 2020-2023

Bachelor of Science in Cell and Molecular Biology (Premed.)

- *Transfer from Purdue University (2019-2020), Bachelor of Science in Public Health*

PUBLICATIONS

Co-Author

Godebo, Tewodros, et al. "Toxic Metals and Essential Elements Contents in Commercially Available Fruit Juices and Other Non-alcoholic Beverages From the United States." *Journal of Food Composition and Analysis*, vol. 119, Elsevier BV, Feb. 2023, p. 105230. <https://doi.org/10.1016/j.jfca.2023.105230>.)
