Chicago, IL | aarunimaheshwari01@gmail.com | +1-312-523-4375 | [LinkedIn](#)

Analytical and results-driven Data Analyst with over two years of experience in data analysis, statistical modeling, and business consulting across the U.S. and India. Hold a Master's in Management Information Systems with expertise in Python, SQL, Tableau, Power BI, and predictive analytics. Skilled in building dashboards, forecasting models, and automated reporting pipelines that translate complex data into actionable insights. Adept at data preparation, quality assurance, and stakeholder collaboration, with a keen interest in credit modeling and financial data analytics.

Experience

Data Analyst II (Consulting) – Targeted Technology Solutions, Chicago, IL

Jan 2025 – Present

- Designed and implemented a centralized KPI reporting framework using SQL and Excel, improving reporting accuracy and forecasting for executive stakeholders.
- Built a UTM builder and automated reporting pipelines with Python, APIs, and Power BI, streamlining ingestion, preparation, and visualization of multi-source data.
- Developed and deployed a chatbot integration to automate data collection and reporting, streamlining queries, enhancing user engagement and compliance monitoring.

Data Analyst Intern – HomePage Infotech Solutions, India (Remote)

Jan 2024 – Dec 2024

- Conducted statistical analysis on 100K+ transactional records using SQL and Python (pandas, scikit-learn), uncovering insights that improved product decisions by 20%.
- Developed 100+ automated test cases with Pytest, ensuring data quality and reducing reporting errors by 25%.
- Redesigned Power BI dashboards with automated refresh schedules, cutting reporting time by 40% and increasing adoption across teams.

Strategic Consulting Intern – Matter, Chicago, IL

Aug 2023 – Dec 2023

- Integrated 100K+ rows of CRM data by building ETL pipelines, reducing manual data handling by 70% and improving access to insights.
- Created and automated executive Tableau dashboards, enabling senior management to monitor KPIs and reduce ad hoc reporting requests by 50%.
- Partnered with stakeholders to align business requirements with data models, ensuring accuracy and integrity in decision-making.

Projects

Disaster Response Application

- Built a mobile disaster response application integrating real-time alerts, GIS-based shelter mapping, and risk assessment tools, improving emergency response accuracy and community preparedness.
- Partnered with stakeholders to design alert workflows and reporting structures, enhancing data governance, compliance, and the efficiency of decision-making in disaster management.

Supply Chain Analytics for Seasonal HVAC Products

- Designed demand forecasting models and calculated inventory turnover KPIs using SQL, Excel Power Query, and Tableau, enabling data-driven supply chain planning.
- Delivered actionable recommendations that reduced inventory holding costs and aligned production schedules with seasonal demand.

Airbnb Price Prediction

- Applied statistical modeling and predictive algorithms (Logistic Regression, Neural Networks, Naïve Bayes) on 10K+ listings, achieving 89% accuracy using Python and scikit-learn.
- Delivered results through interactive dashboards, supporting scenario planning and decision-making.

Skills

Programming & Databases: Python (Pandas, NumPy, Matplotlib), R, Java, SQL, MySQL, PostgreSQL, Data Modeling, CRUD Operations

Data Analysis & Visualization: Tableau, Power BI, Excel (Advanced), Splunk, JMP, Dashboard Development, Reporting & Forecasting

Data Engineering & Cloud: ETL Workflows, Data Pipelines, Data Warehousing, API Integration, AWS (EC2, Athena, IAM, S3), Snowflake

Methodologies & Tools: KPI Tracking, Statistical Analysis, Predictive Modeling, Feature Engineering, Demand Forecasting, Agile, Scrum, Jira, Test-Driven Development (TDD), Data Governance, Business Intelligence (BI), Cross-Functional Collaboration

Certifications: Deloitte Data Analyst, Electronic Arts Project Management, IC2 Cybersecurity, AWS Cloud Security Builder, Great Learning Data Visualization in Tableau

Education

University of Illinois, Chicago, IL

Aug 2023 – May 2025

Masters in Management Information Systems

GPA: 3.8/4.0

- **Coursework:** Cyber Security, Data Mining, Database Management System, Project Management, Vendor Management, Enterprise Application Development, Statistical Analysis, Business Intelligence, Data Visualization

Rajiv Gandhi Proudhyogiki Vishwavidhyalaya, India

Aug 2019 – May 2023

Bachelor of Technology in Information Technology

GPA: 3.8/4.0

- **Coursework:** Internet of Things, Information Security, Statistical Modelling, Object Oriented Programming, Machine Learning, Big Data Analytics, Software Engineering
