EDUCATION

University of Wisconsin - Madison

Madison, WI

Bachelor of Science in Computer Science

May 2025

Bachelor of Science in Data Science

May 2025

Relevant Coursework: Data Structures and Algorithms, Introduction to Algorithms, Introduction to Optimization, Machine Organization and Programming, Data Science Modeling I & II, Data Science Programming II, Introduction to Artificial Intelligence, Introduction to Big Data Systems, Introduction to Software Engineering, Introduction to Human Computer Interaction

Organizations: Alpha Phi Omega National Service Fraternity (Brother, Fall 2023 – Present), Data Science Club (Member, Fall 2022 – Spring 2023), Wisconsin Autonomous (Member, Fall 2022 – Spring 2023)

EXPERIENCE

Ace Hardware – Ace Rewards

Oak Brook, IL

Data Science Intern

May 2024 – August 2024

- Performed data ETL via Teradata SQL on HDFS, pandas, and additional Python tools
- Developed scikit-learn RandomForest and XGBoost Machine Learning models to perform data imputation on missing customer information, enhancing customer marketability
- Created two consulting presentations educating C-suite officers on potential marketing initiatives to better capture Gen Z consumers and AI opportunities within Ace Hardware, improving personal business and communication knowledge and skills

HC Technologies – Forex Trading Firm

Chicago, IL

IT Intern

May 2022 – August 2022

Delivered three projects via Python and additional tools which improved company workflow:

- Developed tracking application utilizing OpenWeatherAPI to gather weather data and generate a weighted average timescale in Graphana, providing company access to trading data line weather conditions and status
- Streamlined company's AWS cloud cost management by developing a scraper application that gathered company AWS resources and tagged them via AWS REST API
- Achieved on call visibility of DevOps personnel availability to executives by creating linker application to import Google Sheets data to Google Calendar via Google REST APIs

Second Life Mac – Apple Repair Shop

Skokie, IL

Audit/Testing Associate

June 2021 – August 2021

- Physically and digitally tested a daily average of 150 Apple devices to ensure functionality for various school districts. Modified MacOS via terminal and external tools for testing and preparation
- Trained new employees on warehouse procedures and organized equipment to optimize warehouse workflow

PROJECT EXPERIENCE

The Avendors

January 2025 – May 2025

- Collaborated with five other classmates to build and deploy a virtual vending machine for Software Engineering Capstone
- Developed Python command-line interface to emulate vending machine functionality. Additional features include payment history tracking and exporting via MySQL database and card payment processing via Stripe API. Program deployed via Docker containers on Ubuntu VM
- Utilized Scrum methodologies to simulate Agile process

Intern Capstone Presentation

May 2024 – August 2024

- Collaborated with four other interns to develop conceptual designs for AI enhancements to Ace Hardware's business processes
- Proposed a project roadmap for Ace to follow to implement design given their current resources and AI initiatives
- Consulted with internal and external resources to develop a business ROI plan with revenue analysis for selling to executives

SKILLS

Technical Skills: Python, Java, R, SQL, JupyterLab, C, Bash, pandas, Microsoft Excel, Microsoft PowerPoint, Git, Docker, PyTorch, sklearn, Microsoft PowerBI

Other Skills: Communication, Critical Thinking, Teamwork, Leadership, Adaptability, Creativity
