

Aashu Patel

Data Engineer | 561-788-9034 | aashupatel1114@gmail.com | [LinkedIn](#)

Summary

- Experienced and results-driven Data Engineer with 3+ years of experience in designing, developing, and maintaining scalable data infrastructure to extract, transform, load. My expertise lies in crafting robust Big Data solutions, ETL pipelines, optimizing data architectures, and ensuring data reliability for organizations across diverse industries.

Work Experience

TechCore Global | Data Engineer | Dallas, Texas

Jan 2024 – Current

- Designed and implemented scalable data pipelines using **SparkSQL** and **Pyspark** within **Databricks**, reducing ETL processing time by **40%** and improving data accessibility for analytics teams.
- Collaborated with cross-functional teams to implement automated dashboards using **Power BI**, to extract valuable insights for credit card risk analysis, and a remarkable **25%** improvement in performance.
- Leading a team in migrating legacy on-premises **Hadoop** Cluster to **AWS** cloud infrastructure, achieving a **25%** cost reduction, and enhancing scalability and reliability.
- Develop ETL processes using **Apache Airflow** to automate data workflows, reducing manual effort by **30%** and improving data accuracy.
- Employed **Cassandra** as a robust **No-SQL** database to efficiently store and manage customer-behavioral data, enabling rapid retrieval and analysis.
- Created real-time streaming data pipelines using **Apache Kafka**, **Apache Spark**, **HDFS**, enabling instant data ingestion and processing for real-time analytics.

Tech Stack: - Hadoop, Hive, Spark, NOSQL Cassandra, Python, Apache Kafka, AWS, Databricks, Power BI, Apache Airflow

Infosys Limited | Data Engineer | Richardson, Texas

April 2022 – Dec 2023

- Collaborated with data engineers and stakeholders to integrate data pipelines, extract actionable insights for mortgage risk analysis, enabling seamless data ingestion, transformation, and storage.
- Optimized **ETL** processes for loading data into **Snowflake**, resulting in a **50%** reduction in data loading time.
- Transitioned **MapReduce** tasks to **Spark-based** frameworks using **Pyspark**, **Scala** scripts improving processing time by **25%**.
- Built a NIFI pipeline to handle data from internal vendors and majorly Retail bank data to load directly to **AWS** Hosted on **AWS EC2** Instance and **AWS EMR** resulting in a **25%** cost reduction.
- Optimized **hive scripts** and tuned performance of **10+ hive jobs** that reduced load time by at least **30%**.
- Created interactive **Tableau** dashboards for in-depth analysis of key credit card metrics.

Tech Stack: - Python, Kafka, Hadoop, Hive, AWS, Tableau, Spark Batch, Spark SQL, GCP, Scala, Snowflake

Infosys Limited | Software Engineer | Richardson, Texas

Aug 2021 – April 2022

- Followed **Agile** Methodologies to build application. Participated in **scrum** related activities and daily scrum meetings.
- Contributed to the mortgage department in development of software engineering solutions to support processing workflows using **Spring MVC**, configuring dependency Injection, **Spring Boot** and **Microservices** increased responsiveness by **15%**.
- Developed and maintained software components using **Java**, **SQL**, **Perl script**, **Spring Boot**, and other relevant technologies.
- Utilized **Docker**, **Jenkins** and **Argo CD** on **Kubernetes**, reducing deployment time from **40** minutes to **10** minutes.
- Technical support to applications in troubleshooting, analyze, discovery, system design reviews, automate testing, deployment, research, modify, debugging software, maintenance.

Skills

- Programming Languages:** -Java, SQL, Python, Scala
- Hadoop Ecosystem:** Hive, Sqoop, oozie, Impala, MapReduce, Zookeeper, Flume, Yarn, Hortonworks, Cloudera
- Apache Spark:** Spark Core, SparkSQL, Spark Streaming, Kafka, Pyspark, Spark Shell
- Cloud Computing:** - AWS (EC2, Redshift, Glue, EMR, Lambda, Kinesis, Athena), Microsoft Azure, Google Cloud (GCP)
- Concepts used:** Object Oriented Programming, Data warehouse, Data Lake, Data Structures, Scrum.
- RDBMS/NoSQL:** - RDBMS (MySQL, PostgreSQL, Aurora, Oracle), NoSQL (HBase, Cassandra, DynamoDB, Elastic cache)
- Other Tools:** - GitHub, Maven, Jira, Sprint, Putty, Snowflake, Informatica ETL, Databricks, Kubernetes, Docker, Tableau, Power BI, Jupyter Notebook, Apache Impala, Apache Airflow, Spring Boot, J2EE, Nodejs.

Education

Master's in computer science | University of Texas, Arlington, TX

Aug 2019 - May 2021

Bachelor's in computer engineering | Gujarat Technological University, India

Aug 2015 - May 2019

Certifications

- [AWS Certified Solutions Architect - Associate](#)
- [AWS Certified Data Engineer - Associate](#)
