

ABDU KIKHIA

Data Analyst

(573) 968-9343 | a.kikhia11@gmail.com | Atlanta, GA

CAREER SUMMARY & SKILLS

Data Analyst with cross-industry experience spanning sales analytics, business process optimization, and sport science. Skilled in leveraging ERP systems (Odoo), data visualization (Power BI, Shiny), and advanced analytics (R, Python, SQL) to drive decision-making and revenue growth. Proven track record of improving sales effectiveness, automating reporting and ETL pipelines (Google Cloud), and delivering actionable insights for executives, multi-disciplinary teams, and performance staff. Adept at collaborating with leadership and cross-functional teams to translate complex data into clear strategies that deliver measurable results.

Automation | R | Python | Excel | Google Cloud | Power BI | Tableau | Project Management & Organization | English | Arabic

PROFESSIONAL EXPERIENCE

KONA TUNA | BI Data Analyst

May 2025 – Dec 2025

- Enhance current sales processes and CRM workflows in Odoo ERP, streamlining reporting and pipeline tracking across the sales team and key stakeholders.
- Created an inventory stockout and allocation prediction model to improve product replenishment, warehouse allocation, and inventory turnover rate.
- Improved territory design and customer priority to balance workloads and maximize coverage efficiency through segmentation modelling.
- Designed customer segmentation and potential models using regression analysis, improving customer targeting and marketing effectiveness by 30%.
- Customized dashboards and KPI's in Odoo and Power BI to provide clear, actionable insights for executives and field sales staff.
- Introduced the Kona Partner incentive program, strengthening customer loyalty, decreasing customer credit, and driving higher client engagement.

BEN MUSA HOLDING | BI & Marketing Data Analyst

Oct 2023 – Dec 2025

- Built interactive dashboards (Power BI, Shiny) to track sales, marketing ROI, and inventory KPIs, improving multi-team decision-making efficiency by 50%.
- Deliver reporting and coordination support by integrating campaign data from Meta and Google Ads into Shiny dashboards.
- Automate recurring monthly and quarterly sales reports using GCP and R, significantly decreasing manual reporting time by at least 60%.
- Delivered inventory insights using ABC-XYZ analysis to optimize product budget allocation and stocking strategies.

FSCR | Sport Scientist / Analyst

Aug 2023 – Present

- Designed ETL pipelines with R, Python, and GCP tools (Cloud Scheduler, Cloud Run, Cloud Build) to pool and integrate athlete data from varying sources.
- Created two R Packages, "ageR" and "athletegps", to help streamline data processing and increase ETL pipeline efficiency.
- Automated workflows writing into Google BigQuery/SQL for scalable storage, analysis, and reporting.
- Deliver athlete monitoring dashboards in Power BI and Shiny to coaches and performance staff, expediting evidence-based decisions by 30%.
- Facilitate bi-weekly knowledge-sharing sessions on emerging sport science methodologies, fostering a data-informed performance culture among coaching staff.

PROJECT EXPERIENCE

CLOUD BASED ETL AUTOMATION

Nov 2023 – Present

- Developed 15+ ETL workflows on GCP (Cloud Build, Cloud Run, Cloud Scheduler, BigQuery) to streamline recurring data ingestion, transformation, and delivery tasks, improving scalability and reliability.
- Improved scalability and ensured consistent delivery of financial and operational data for stakeholders.

AUTOMATED ATHLETE PERFORMANCE DASHBOARDS

Feb 2024 – Present

- Designed a Shiny Web App and Power BI Dashboard that visualized testing, recovery, and workload data, functioning as a "patient chart" equivalent for athletes.

SALES FORCE EFFECTIVENESS OPTIMIZATION & TRAINING INITIATIVE

Aug 2025 – Dec 2025

- Improved sales force effectiveness by analyzing performance drivers (conversion rates, pipeline velocity, territory coverage, account segmentation, inventory replenishment) and providing actionable feedback to leadership.

EDUCATION

MASTER OF RESEARCH DEGREE (MRES) | University of Roehampton

2022 – 2024

BACHELOR OF SCIENCE DEGREE (BSC) | University of Roehampton

2019 – 2022
