

ABDUL HAMEED ANSARI

Omaha, NE 68102 — (404) 942-8852 — ansarihameed022@gmail.com

PROFESSIONAL SUMMARY

Results-driven Electrical Engineer with 4+ years of progressive experience in power systems, control systems design, and electrical infrastructure. Skilled in circuit design, troubleshooting, and technical documentation with proven ability to optimize system performance. Strong foundation in engineering management and supply chain optimization.

CORE TECHNICAL SKILLS

Electrical Engineering:	Circuit Design & Analysis — Power Distribution Systems — Control Systems Engineering — Electrical Schematics — Troubleshooting & Diagnostics — Motor Control Systems
Design Software:	MATLAB — Simulink — AutoCAD — EPLAN — Industrial Control Systems
Engineering Tools:	Technical Documentation — Systems Analysis — Load Flow Analysis — Equipment Testing — Compliance Verification
Additional:	Supply Chain Optimization — Process Improvement — Project Coordination — Data Analysis

PROFESSIONAL EXPERIENCE

SUPPLY CHAIN ANALYST INTERN

NNL Logistics — Elberton, GA

January 2025

Present

- Analyzed supply chain operations identifying cost reduction opportunities and process inefficiencies
- Optimized logistics workflows using data analysis to track KPIs and enhance operational efficiency
- Coordinated cross-functional projects with procurement and inventory teams
- Applied analytical skills leveraging engineering background to solve complex operational challenges

DIGITAL DEVICE AND ALEXA SUPPORT ASSOCIATE

Amazon — Hyderabad, India

April 2022

December 2022

- Provided technical support for Amazon digital devices and Alexa ecosystem, troubleshooting hardware and software issues
- Diagnosed complex technical problems independently, demonstrating strong analytical abilities
- Documented solutions and maintained detailed technical records for continuous process improvement
- Managed customer interactions professionally while resolving technical challenges efficiently

ASSISTANT ELECTRICAL ENGINEER

AL Energy Systems — Hyderabad, India

November 2020

March 2022

- Designed and analyzed electrical circuits for energy management systems, ensuring compliance with safety standards
- Conducted power system analysis and load flow calculations to optimize electrical distribution
- Documented technical specifications and created detailed electrical schematics for system design
- Collaborated with engineering teams on equipment selection and system performance optimization
- Performed equipment testing and troubleshooting to identify and resolve electrical faults

ELECTRICAL ENGINEERING INTERN

Enrun India — Hyderabad, India

November 2019

February 2020

- Assisted in circuit design and analysis for industrial electrical systems under senior engineer supervision
- Developed technical documentation including wiring diagrams and equipment specifications
- Supported system testing and commissioning activities for electrical infrastructure projects
- Gained hands-on experience with electrical testing equipment and troubleshooting methodologies

EDUCATION

Master of Science in Engineering Management

Trine University — Angola, IN

2023 – 2024

GPA: 3.5/4.0

Bachelor of Engineering in Electrical and Electronic Engineering

Osmania University — Hyderabad, India

2015 – 2020

GPA: 2.9/4.0

CERTIFICATIONS & PROFESSIONAL DEVELOPMENT

- Proficiency in MATLAB and Simulink for electrical system simulation
- Industrial Safety Training – Electrical Safety Standards Compliance
