

Abdullah Amberkhani

 Abdullah Amberkhani |  Abdullah Amberkhani |  330.606.6569

SUMMARY

Analytical and results-driven Junior Data Analyst with hands-on experience in SQL, Python (Pandas/NumPy), Power BI, Tableau, IBM Cognos, and Watson. Completed projects in time-series forecasting, healthcare analytics, and spatial analytics (ArcGIS). Strong track record of cleaning messy data, building dashboards that drive decisions, and communicating insights to stakeholders. Eligible to work in the U.S. on OPT; actively seeking entry-level data analyst roles.

WORK EXPERIENCE

Data Science Intern, IBM

July 2022 – Dec 2022

- Collaborated on healthcare analytics use cases using **IBM Cognos** and **Watson Analytics**.
- Built predictive models for hospital readmission analysis, leveraging large datasets.
- Designed and deployed dashboards to monitor KPIs, providing actionable insights to stakeholders.
- Improved forecasting accuracy through feature engineering, preprocessing, and model tuning.

PROJECTS

Hospital Healthcare Analytics (IBM Cognos & Watson)

[GitHub Repo](#)

Designed dashboards in **IBM Cognos** and built predictive models with **Watson Analytics** to analyze hospital admissions, length of stay, and readmission risk, improving decision-making for healthcare management.

Cryptocurrency Price Prediction (LSTM & GRU)

[GitHub Repo](#)

Implemented deep learning models (LSTM, GRU) for time-series forecasting of cryptocurrency prices. Optimized models through feature engineering, scaling, and hyperparameter tuning to improve accuracy over baselines.

Facial Emotion Recognition (Python, OpenCV)

[GitHub Repo](#)

Developed a machine learning pipeline to detect and classify human facial emotions in real time using **Python** and **OpenCV**. Achieved high accuracy in multi-class emotion classification.

EDUCATION

2023 - 2025 **M.S. in Data Science**, Kent State University

(GPA: 3.18/4.0)

2019 - 2023 **B.E. in Computer Science**, Anna University

(GPA: 8.15/10.0)

PUBLICATIONS

Amberkhani, Abdullah et al. (2025). "Revolutionizing Cryptocurrency Price Prediction: Advanced Insights from Machine Learning, Deep Learning and Hybrid Models". In: *Future of Information and Communication Conference (FICC)*. Vol. 3, pp. 274-286.

SKILLS

Programming	Python, SQL, R
Data Visualization	Power BI, Tableau, IBM Cognos, Matplotlib, Seaborn
Machine Learning	Scikit-learn, TensorFlow, Keras, LSTM, GRU
Data Management	MySQL, PostgreSQL, Excel, ArcGIS Pro
Tools	Git, Jupyter, IBM Watson Analytics
Soft Skills	Analytical Thinking, Problem Solving, Communication
