SUMMARY

Detail-oriented Project and Operations Professional with 3+ years of experience delivering data-driven projects, coordinating cross-functional teams, and improving business operations through process automation and reporting. Proven ability to manage timelines, collaborate with stakeholders, and drive initiatives to successful completion. Strong communicator with a background in data analytics, business intelligence, and web application development. Proficient in project tracking tools like Jira and version control with Git.

CORE SKILLS

Project Coordination & Tools: Jira, Git, Google Workspace, Google Sheets, Project Timelines, Stakeholder Communication

Data & Reporting: Tableau, SQL, Python, Google App Scripts, Excel (PivotTables, VLOOKUP), Google Sheets

Web & Deployment: Ruby on Rails, Django, PostgreSQL, JavaScript, VueJS, AWS, Heroku

EXPERIENCE

SweetChilli Cakes | Brooklyn, NY

Freelance Web Developer / Technical Project Contributor

Aug. 2024 – Present

- Led full-cycle website development projects from requirement gathering to deployment.
- Translated client business needs into technical solutions, improving customer reach and engagement.
- Built PostgreSQL-backed applications to collect and manage customer data for marketing initiatives.
- Delivered projects independently while aligning timelines and deliverables with client expectations.

Andros | New York, NY

Software Development Engineer | Data Analyst | Operations Coordinator

Jan. 2021 – Apr. 2024

- Coordinated cross-departmental efforts to design and implement automated workflows using Python and SQL, reducing manual effort by 6+ hours per reporting cycle.
- Managed the development of 60+ recurring reports and dashboards in Tableau to monitor KPIs and operational efficiency.
- Partnering with leadership to define project goals, milestones, and scope, delivering process improvements with measurable results (e.g., 50% efficiency gain).
- Used Jira and Git to track progress, prioritize tasks, and ensure project alignment with business objectives.
- Played a key role in transforming raw data into stakeholder-ready insights through structured ETL pipelines and visualizations.

Understood.org | New York, NY

Data Science Research Assistant

Feb. 2020 – Sept. 2020

- Delivered over 200 data visualizations for internal marketing projects, contributing to strategic campaign planning.

Baked by Melissa | New York, NY

Data Entry Clerk

Nov. 2019 – Jan. 2020

- Maintained data integrity by accurately processing high volumes of operational records using Excel.

PROJECTS

Bounty Hunter – Task Management Web App

Jun. 2024 – Present

Spearheaded the design and implementation of a task management application using Ruby on Rails and PostgreSQL.

- Defined and tracked development milestones, ensuring consistent progress toward functional requirements.
- Built user analytics dashboards and real-time data updates using CRUD operations.
- Deployed to Heroku for scalable cloud access.

EDUCATION & CERTIFICATIONS

Bachelor of Science in Business Management

CUNY – Brooklyn College | June 2019

Certificate in Data Analytics

BrainStation | September 2019
