US Citizen

Objective:

Seeking a full-time position or internship in Business Computer Information Systems with a focus on data analytics, systems management, or IT support within a business environment.

Education:

University of North Texas (UNT), Denton, TX

BS Expected Graduation: December 2025

Bachelor of Science in Business Computer Information Systems

- Concentration in Business and Data Analytics

BCIS GPA: 3.857, Overall GPA: 3.647

Professional Background:

Senior majoring in Business Computer Information Systems at the University of North Texas, graduating December 2025. Recognized for academic excellence with three Dean's List honors and one President's List distinction. A driven and dependable professional known for integrity, adaptability, and strong problem-solving skills. Demonstrates consistent leadership through mentoring peers, coordinating team efforts, and taking initiative in both academic and workplace settings. Thrives in fast paced environments, remains composed under pressure, and brings a result-oriented mindset to every challenge.

Technical Skills:

- **Programming & Scripting:** Python, C++, JavaScript, SQL
- **Data Analytics & Visualization:** Excel (Certified), Tableau, Power BI
- **Networking & Security:** Wireshark, Attack Linux, Networking Fundamentals
- **Mainframe & Systems:** IBM Mainframe, JCL, Active Directory
- **Development Tools & Software:** NetBeans, Microsoft Office Suite, Visio

Core Competencies:

- **Analytical Problem-Solving:** Delivers efficient, data driven solutions to complex challenges
- **Adaptability:** Thrives in fast paced, changing environments with a calm, focused approach
- **Initiative:** Proactively identifies opportunities and drives continuous improvement
- **Collaboration:** Builds strong working relationships to support team and project success

Professional Experience:

Walmart

March 2024-January 2025

Team Lead

Prosper, TX

- Oversaw daily operations and support department associates to ensure efficient workflow, accurate stocking, and strong customer satisfaction.
- Trained and supervised over 20 team members on company policies, task execution, and customer service expectations.
- Actively engaged with customers to resolve concerns, recommend products, and maintain a clean, organized sales floor.

Ayass Bioscience Inc.

January 2022-June 2022

Student Assistant

Frisco, TX

- Accurately entered and maintained patient records, lab results, and clinical data into secure medical databases with a focus on confidentiality and compliance.
- Reviewed and verified data for accuracy and completeness, ensuring consistency across electronic health records and lab reporting systems.
- Utilized Excel and custom medical software to generate reports and track key health metrics for ongoing studies and internal audits.

Projects:

Payroll Calculation System

November 2024

Tools Used: **Java**

- Developed a Java-based payroll system to automate salary, commission, and tax calculations, ensuring 100% accuracy and reduced manual effort in payroll processing.

Sales and Profit Analysis Dashboard

November 2024

Tools Used: **Excel, Tableau**

- Analyzed sales records to identify trends in profitability and utilized Excel for data cleaning and Tableau for interactive visualization.
- Provided recommendations to improve sales forecasts and increase revenue.

Additional:

- Excel 2019 Associate
- Bilingual: Fluent in Arabic

September 2024
