

ABHIGNA BALUSANI

+1 (206) 371-8490 | balusani.a@northeastern.edu | [LinkedIn](#)

Healthcare Data Specialist with nearly 4 years of experience in data analytics, reporting, and data engineering. Expertise in SQL, AWS, Python, Tableau, and Power BI, with hands-on experience across multiple cloud platforms. Strong background in Excel-based analytics, including KPI tracking and performance reporting. Proven ability to collaborate cross-functionally and develop impactful data visualizations that support business decisions. AWS Certified Cloud Practitioner.

WORK EXPERIENCE

Analyst | Iqvia , Deloitte USI | India

September 2022 – November 2023

- Designed and implemented data ingestion pipelines from diverse sources (SQL Server, Azure SQL, on-prem systems, client-provided files) to build centralized data marts, enabling a single source of truth for cross-functional teams.
- Built interactive dashboards to help business teams monitor 8+ KPIs including weekly member growth, provider response time, and claim status distribution, enabling data-driven strategy discussions.
- Led business reviews and delivered key insights by developing performance dashboards in Tableau, improving strategic decision-making and identifying cost-saving opportunities worth \$20K annually

Analyst | Pfizer INC. , Deloitte USI | India

May 2021 – August 2022

- Designed and developed 12+ custom interactive Tableau reports to identify outliers, anomalies, and business trends. Implemented row-level security, scheduled refreshes, and deployed reports via Tableau Server.
- Created 20+ ad-hoc data extraction reports from application databases based on evolving stakeholder needs, including outbound interfaces for external data delivery
- Refactored and optimized legacy ETL workflows, reducing runtime by 20% and lowering compute costs for provider and pharmacy data processing.

Analyst | Centene Corporation , Deloitte USI | India

January 2020 – April 2021

- Built end-to-end data pipelines with Informatica, Python, and SQL to process over 5-million-member data updates and additions per run, ensuring high reliability and performance.
- Conducted workflow analysis to troubleshoot recurring failures and resolve data inconsistencies, significantly improving system stability.
- Managed full 834 and 837 EDI lifecycle including member enrollment, provider updates, and claims submissions, ensuring compliant, seamless data exchange across systems.
- Provided round-the-clock on-call support as the primary POC, resolving all tickets within SLA thresholds. This proactive approach directly avoided monetary penalties and generated estimated weekly savings of around \$10K for the organization.

Intern | Kothagudem Thermal Power Plant | India

January 2019 – June 2019

- Collected and integrated data from multiple PLCs and SCADA systems to identify abnormalities and predict sudden performance dips, enabling proactive issue resolution.
- Performed data cleaning and preprocessing to prepare analysis-ready datasets, enhancing data quality and improving decision-making efficiency by 30%.

ACADEMIC PROJECTS

Holistic Healthcare Chatbot

January 2025 – April 2025

Developed an AI-powered chatbot using Streamlit that provides personalized advice on herbal, food-based, and homecare remedies. Integrated OpenAI LLMs with LangChain agents and retrieval chains to support both direct and follow-up queries using custom vector stores. Implemented session memory, automated chat summarization, and email delivery functionality to enhance user experience.

Tech Stack & Focus Areas: LangChain, OpenAI API, Streamlit, Prompt Engineering, NLP, Generative AI, Conversational Agents

TECHNICAL SKILLS

Programming & Scripting Languages: SQL, Python, PL/SQL, C, OOP concepts using C++, UNIX Shell Scripting, NoSQL, Excel
Databases, Data Warehouses & ETL: Oracle 19c, SQL Server, Azure SQL, Snowflake, AWS Redshift , Informatica, AWS Glue
Cloud Storage & Data Lakes: AWS S3, GCS
Data Visualization: Microsoft Power BI, Tableau

EDUCATION

Northeastern University, MS in Data Analytics Engineering | GPA: 3.7/4.0

January 2024 – December 2025

Coursework: Data Visualization, Data Analytics, Machine Learning, DS & Algorithms, Generative AI, Data Mining
