

ABHISHEK SETHI

Jersey City, NJ 07310 | C:(562)-338-4744 | asethilp@gmail.com

SUMMARY

Business Analyst and Product Specialist with 5+ years of experience driving product development, user engagement, and cross-functional alignment. Skilled in Agile delivery, stakeholder management, data-driven decision making and integrating backend systems to deliver scalable, customer-centric solutions.

WORK EXPERIENCE

WW International (WeightWatchers)

New York, NY

Business Analyst

Nov 2021 – June 2025

- Led cross-functional teams to develop and launch wellness programs, defining product vision, roadmap, and requirements, which resulted in 30% increase in product adoption and alignment with strategic goals.
- Partnered with design, engineering, and marketing teams to design, implement and execute growth strategies, aligning with organizational objectives.
- Led integration of Fitbit and Apple Health with mobile apps, boosting engagement by 40% and renewals by 25%.
- Executed thorough analysis of database performance through SQL queries, identifying and resolving critical issues, resulting in a 20% improvement in system efficiency.
- Directed Agile ceremonies and functional design sessions, facilitating clear communication between stakeholders and development teams to drive successful delivery.
- Collaborated on A/B testing and tracked defects, improving transparency and product delivery.

SAP

Chicago, IL

Business Quality Specialist

Mar 2021 - Nov 2021

- Served as a liaison between IT and business stakeholders for requirements gathering, planning, and execution of SAP S4HANA and Fieldglass online services and business functionalities.
- Developed and maintained business process models, use cases, and user stories to facilitate the design and implementation of customer centric ERP solutions.
- Spearheaded backlog management in Rally and JIRA by defining user stories and test cases, resulting in a 90% sprint completion rate and seamless UAT and production validation of new product features.
- Created and tested requirements for FEIN creation in Salesforce for new employers.
- Conducted gap analysis and implemented process improvements that increased operational efficiency by 15%.

PrimePay

West Chester, PA

Business Analyst

Mar 2019 - Mar 2021

- Elicited requirements from business clients across a variety of industries, and drafted project proposals.
- Wrote Technical User Stories based on APIs, observed behavior, and vendor feedback.
- Collaborated with clients to perform User Acceptance Testing (UAT) in an Agile lifecycle.
