Professional Summary

Analytical and results-driven **Data Analyst** with **3+ years of experience** applying data-driven insights to optimize financial operations, risk analysis, and business performance. Skilled in **SQL, Python, Power BI, Tableau, and Azure Synapse** to design data pipelines, automate financial reporting, and build forecasting models that support cost optimization and profitability. Experienced in transforming large-scale datasets into actionable intelligence across healthcare finance and corporate banking domains. Collaborative, **detail-oriented, and driven** by measurable business impact.

Technical Skills

- **Data Analytics & Visualization:** Power BI, Tableau, Excel (Power Query, Pivot Tables, Macros), Looker Studio, Matplotlib, Seaborn
 - **Programming & Databases:** Python (Pandas, NumPy, Scikit-learn, Statsmodels), R (dplyr, ggplot2), SQL (Joins, CTEs, Window Functions), Snowflake, Azure Synapse, PostgreSQL, MySQL
 - **ETL & Cloud Platforms:** Azure Data Factory, AWS Glue, Apache Airflow, SSIS, Databricks, Redshift, dbt
 - **Machine Learning & Statistics:** Forecasting, Regression, Classification, Clustering, Time Series Analysis, A/B Testing
 - **Data Governance & Workflow:** Data Quality Frameworks, Financial Data Compliance, Version Control (Git, GitHub), Agile/Scrum, Jira.
-

Professional Experience **Data Analyst | Elevance Health | Atlanta | GA Project: Healthcare Analytics and Patient Data Insights June 2024 – Present**

- Developed **financial analytics dashboards** in Power BI to track claim cost trends, forecast budgets, and support capital planning decisions.
- Designed **ETL pipelines** in Azure Data Factory and SQL to consolidate claim, payment, and cost-center data, improving reconciliation efficiency by **40%**.
- Built **forecasting models** using Python (Statsmodels, Scikit-learn) to predict financial risk exposure and resource utilization with **90% accuracy**.
- Collaborated with finance teams to automate reporting workflows, reducing manual quarterly analysis time by **25%**.
- Conducted **cost-performance analysis** across multiple healthcare portfolios, enabling leadership to identify **profit leakage and operational inefficiencies**.
- Supported **financial compliance analytics**, ensuring alignment with internal audit and SOX control frameworks.

Environment: Azure Cloud, Power BI, Python, SQL Server, Snowflake, Jupyter Notebook, GitHub

Data Analyst | CMC | Hyd | India Project: Enterprise Banking Data Analytics & Reporting June 2021 – July 2023

- Extracted and modeled **financial and customer transaction data** using SQL and Python, improving accuracy and transparency of business forecasts.

- Designed **Tableau and Power BI dashboards** tracking KPIs such as credit performance, churn patterns, and revenue growth.
- Automated **ETL processes** with SSIS and Python, cutting report generation time by **60%** while improving data reliability.
- Conducted **trend and correlation analyses** to identify key financial drivers influencing portfolio performance.
- Migrated **financial data systems to Snowflake**, enabling faster querying and improved scalability for analytical workloads.
- Delivered **financial insights** under Agile/Scrum collaboration, aligning analytics with compliance and business goals.

Environment: SQL Server, MySQL, Python, Pandas, NumPy, Tableau, Power BI, Excel, SSIS, Snowflake, Git, Agile/Scrum

Education

- Master of Science in Computer Science – University of Central Missouri, Kansas | 2023 – 2025
 - Bachelor of Technology in Computer Science and Engineering – JB Institute of Engineering and Technology, Hyderabad, India | 2019 – 2023
-

Certifications

- Microsoft Certified: Data Analyst Associate (Power BI)
 - AWS Certified Data Analytics – Specialty
 - Tableau Desktop Specialist
 - Google Data Analytics Professional Certificate
 - SQL for Data Science – Coursera
-
