TECHNICAL SKILLS & OTHERS

Technical Skills: VLOOKUPS, Pivot Tables, Python, SQL, R, Linux, SAS, SSIS, Salesforce CRM, JIRA, MS-SQLServer, PostgreSQL, Snowflake, Power Platform, pgAdmin, PL-SQL,

Developer Tools: Tableau, PowerBI, PySpark, Git, Dagster, Alteryx

Cloud Tools: AWS(S3, DynamoDB, CloudWatch, Lambda), Azure(MLStudio), GCP(Big Query)

Libraries: Pandas, BeautifulSoup, Scikit-learn

Certifications: Associate Google Cloud Engineer, AZ - 900, PL-300

WORK EXPERIENCE

N2N Services, Duluth, GA

Data Science Intern

Jun. 2025 – Sep. 2025

- Provisioned SFTP connections, AWS S3 buckets and DynamoDB tables for 10 California Community College tenants and automating ingestion of 500K+ application records/month, sustaining sub-5s query latency, 99% uptime
- Developed and optimized SQL queries, Python (pandas) scripts, and advanced Excel solutions (VLOOKUP, INDEX-MATCH, pivot tables) to clean and transform 10M+ student applications, improving preprocessing speed by 18%
- Partnered with product and engineering teams to align data schemas with business requirements, eliminating 15+ recurring post-UAT fixes per release and enabling partner institutions to go live up to 1 week earlier

PUNKU.AI, San Francisco, CA

Data Engineer

Sep. 2024 – Feb. 2025

- Analyzed business needs, KPIs to refine AI models, increasing client satisfaction scores by 18% across 12 businesses
- Proposed and implemented cost-effective auto-scaling policies on AWS S3, reducing redundant Snowflake DB processing by 25% and cutting cloud storage costs by \$5K annually
- Worked with 10+ cross-functional stakeholders to ensure AI prototype rollout met 100% of defined business requirements
- Ran 20+ A/B tests tuning AI model responses, improving predictive accuracy 15%, optimizing energy market strategies

Geeky Insights, Dallas Fort-Worth Metroplex, TX

Data Engineer Intern

Jun. 2024 – Aug. 2024

- Developed a web scrapy tool, extracting 10,000+ data points from 10+ websites, with increased product listings broadly
- Improved PostgreSQL data validation and Dagster pipelines, boosting data accuracy and cutting processing time by 10%
- Performed 15+ ad-hoc analyses and built 5 Power BI dashboards with a cross-functional team, uncovering 3 marketing opportunities that boosted ROI by 12% and cutting reporting time from 2 days to under 4 hours.

Quantiphi, Mumbai, MH

Data Scientist

Jan. 2023 – Aug. 2023

- Optimized data retrieval over 100GB using OracleDB for NoSQL processing and reducing ingestion time by 7%
- Refined segmentation and elevating Click-Through Rates (CTR) by executing RFM scores, achieving 81% testing accuracy
- Drove user revenue increase, achieving 9% cross-selling growth by presenting curated marketing dashboards in PowerBI

KPMG, Mumbai, MH

Business Analyst Intern

May. 2022 – Dec. 2022

- Collaborated and conducted User Acceptance Testing (UAT) on real-time revenue dashboards with C-suite executives to define critical KPIs for sales team in Power BI improving executive decision-making speed by 40%
- Created advanced DAX measures and calculations in Power BI to transform complex financial data into actionable insights, resulting in a 25% increase in forecast accuracy
- Optimized ETL processes and data pipeline performance using T-SQL and MS-SSIS, reducing dashboard refresh times by 65% and enabling near real-time analytics

RainMan Consulting Pvt. Ltd, Bengaluru, KA

Business Analyst Intern

May. 2021 – Dec. 2021

- Developed statistical arbitrage trading strategy for INFY-TCS pair using z-score signals with dynamic entry/exit thresholds
- Applied Augmented Dickey-Fuller test using standard deviation, $\pm 2\sigma$ bands for trade signals and mean reversion exits
- Generated 16% alpha through Pairs Trading Algorithm using statistical arbitrage and co-integration analysis (2011-2021)
- Created 10+ interactive Tableau dashboards visualizing trade ledger performance and market trends for client analysis

PROJECTS

Forecasting Food Commodities Losses using XGBoost & Bayesian Structural Time Series Modeling

Fall 2023

Oct. 2023 – Dec. 2023

- XGBoost: Achieved low RMSE in training (1.95), good R-squared in test set (0.66), with 41.01% MAPE
- BSTS: Long series had 11.33 RMSE, 0.66 R-squared; short series had 12.52 RMSE, 0.17 R-squared, and 171.81 MAPE

EDUCATION

Master of Science Data Science, University Of Colorado Boulder

Boulder, USA

Aug. 2023 – May. 2025

GPA: 3.75 / 4.00
