Technical Skills

Languages: Python(Numpy & Pandas), SQL

Analytical Tools: Power BI, Tableau, Microsoft Excel(PivotTables, VLOOKUP, Data Analysis)

Database: MySQL, Microsoft SQL Server

Cloud Technologies: Azure (basic familiarity with data storage, database, and data warehousing concepts)

Methodologies: JIRA, Agile (Scrum), Microsoft Project Management

Experience

BlitzApply

Jun 2024 – Present

Business Analyst

Remote

- Analyzed user feedback on job application forms to identify key pain points. Collaborated with the development team to implement the improvements in the user interface, resulting in a 15% increase in the completion rates of the forms and an enhanced user experience.
- Conducted data analysis of application trends using Excel and basic SQL queries. Visual reports presented using tools such as Power BI, enabling data-driven decisions that improved targeted outreach by 20% and increased market engagement
- Facilitated requirements gathering by interviewing stakeholders and documenting their needs using tools like JIRA. This ensured clear objectives for the development team, contributing to a successful launch of the feature with 90% user satisfaction and meeting project timelines.

NJ Transit

Jun 2023 – Dec 2023

Data Analyst- Procurement

Newark, NJ

- * Identified \$1.5M in potential cost savings by performing in-depth spend analysis using Excel and Power BI, specifically targeting price inconsistencies across departments through data mining, trend analysis, and identification of spending outliers.
- * Designed and implemented interactive Power BI dashboards to visualize key performance indicators (KPIs), resulting to a 12 % improvement in forecasting accuracy.
- * Integrated data from Oracle E-Business Suite into Power BI, enhancing contract visibility and contributing to a 10 % increase in on-time supplier deliveries.
- * Developed a comprehensive Power BI supplier scorecard, resulting in a 15 % improvement in supplier management efficiency.

Blazeclan Technologies

Jun 2021 – Aug 2022

Data Analyst

Pune, India

- * Identified key attrition factors through analysis of transaction data in Excel, informing targeted retention strategies.
- * Developed Power BI visualizations for customer engagement metrics (churn rate, retention KPIs), contributing to a 5 % reduction in churn within six months..
- * Collaborated with team members using version control systems such as Git to organize modifications and assign tasks.
- * Automated the extraction, transformation, and loading (ETL) process using Python for customer transaction and account balance data from multiple sources, reducing manual data processing time by an estimated 15%.
- * Leveraged Excel and Power BI to analyze monthly KPI reports (account balance, transaction frequency) to pinpoint factors influencing customer churn, informing targeted retention strategies.

Projects

Loan Portfolio Analytics | Power BI, SQL

- Analyzed a \$2B loan portfolio with 500K+ records and 300K+ customers using SQL, evaluating KPIs such as total loan applications, funded amounts, and portfolio health.
- Implemented Power BI solutions with grid view reports on loan status and KPIs, leading to an 18 % reduction in delinquencies through targeted data-driven strategies.

Hospitality Revenue Analysis | Power BI, SQL

- Analyzed data from 30+ properties and 500,000+ bookings using SQL and Power BI, identifying growth opportunities through detailed data analysis.
- Developed Power BI dashboards to visualize key performance indicators (KPIs) such as revenue, occupancy rate, and average daily revenue, optimizing revenue and operational performance.

Education

Drexel University

Sep. 2022 – Apr. 2024

Master of Science (MS) in Data Science

Philadelphia, PA

Pune University

Aug. 2017 – Jun. 2021

Bachelor of Engineering (BE) in Electronics & Telecommunication

Pune, India
