

ABHISHEK SAWANT

Seattle, WA · ansawant75@gmail.com · +1(206) 697-9145 · linkedin.com/in/abhishek-n-sawant

SUMMARY

Backend-focused Full-stack Developer with 4+ years of experience in Java, Spring Boot, and cloud platforms (AWS, GCP). Experienced in designing RESTful APIs, microservices, and building cloud-ready systems with growing expertise in Python scripting, CI/CD automation, and infrastructure tools like Docker and Jenkins.

PROFESSIONAL EXPERIENCE

Office for Catholic Schools, Archdiocese of Seattle | Capstone Project

Seattle, WA

Data Scientist

01/2025 - 06/2025

- Analyzed **financial, enrollment, staffing, and demographic** data to predict operational health of **74 Catholic schools**.
- Developed **classification models (Multinomial Logit, Naive Bayes, Random Forest)** using **meta-analysis feature selection**, achieving **69.1%** accuracy for financial health and **70.9%** for capacity utilization.
- Built **multi-level Power BI dashboards** with **GIS-based demographic overlays** and **automated ETL pipeline** for real-time risk monitoring.

Bitwise Solutions

Pune, India

Programmer Analyst - Backend Developer

02/2022 - 08/2023

- Led re-architecture** for Payment Processing, enhancing **API capabilities** and boosting **transaction speed** by 30%, streamlining workflows and user experience.
- Developed tokenization system**, improving **payment processing by 25%** and reducing transaction times, enhancing security and efficiency.
- Integrated Java Spring Boot** with **Google Cloud Platform** in **Microservices architecture**, increasing **scalability and robustness by 20%**.

Cognizant Technology Solutions

Pune, India

Associate - Backend Developer

06/2019 - 01/2022

- Developed backend** for Health, Asset, and Wallet products in the **Insurance Domain**, increasing **processing efficiency by 25%** and enhancing policyholder and claim processing.
- Led the **design and implementation REST APIs**, optimizing policy number generation and increasing **client satisfaction by 20%**, enabling smoother integration and faster data retrieval.
- Designed a **Microservices architecture** with **Java Spring Boot, Hibernate**, and **MySQL**, increasing **project execution efficiency by 30%** and improving alignment with Agile user stories and sprints.
- Built a **dynamic messaging system** using **Amazon SQS** and **S3**, automating policy notifications with **API-driven customer data**, improving delivery efficiency and client engagement.

TECHNICAL SKILLS

Programming Languages & Frameworks:	Java, Spring Boot, Hibernate, Python(Numpy, Pandas), SQL, Angular
Databases:	MySQL, Redis, DynamoDB
Cloud Platforms:	AWS (S3, EC2, SQS), GCP
Tools:	Postman, Swagger, GitHub, Jenkins, Maven, JUnit, Mockito, CI/CD
Web:	HTML5, CSS3, JavaScript, Bootstrap

PROJECTS

Bird Sound Classification

Deep Learning

- Built CNN models for binary and multi-class classification of bird species using spectrograms from audio recordings.
- Achieved 100% test accuracy in binary classification and 94.73% in multi-class classification.
- Enhanced model performance using dropout layers to prevent overfitting and improve generalization.

Clinix – Medical Healthcare Diagnostic System

Angular, Spring Framework

- Created an **appointment scheduling system** with doctor search, filtering, and real-time booking.
- Implemented **back-end services** using **Spring Boot** for managing doctor availability, appointment history, and patients.
- Created **responsive UI** using **Angular, Bootstrap** for **cross-device compatibility**.

House Ownership Prediction

Support Vector Machines

- Applied SVM models (linear, radial, and polynomial kernels) to classify home ownership using Washington state census data.
- Achieved 86.26% accuracy with the polynomial kernel SVM model.
- Identified key predictors like age, bedrooms, household income, and water costs for housing ownership.

EDUCATION

Seattle University | Master of Science in Data Science | Seattle, WA

09/2023 - 06/2025

NBN Sinhgad School of Engineering | Bachelors in Computer Engineering | Pune, India

08/2015 - 05/2019
