Professional Profile

Detail-oriented Business Analyst with a strong foundation in data analytics, process improvement, and stakeholder communication. Skilled in transforming complex data into actionable business insights using tools such as SQL, Python, Power BI, Excel, and Tableau. Experienced in performing root-cause analysis, automating reports, and generating KPIs that guide strategic decisions. Adept at collaborating with cross-functional teams to align data solutions with business goals. Background in engineering and analytics enables a unique problem-solving approach to optimize performance and deliver value across projects.

Technical Skills

Programming & Software:

Python (Jupyter, Colab, VSCode) · R & RStudio · SQL (MySQL Workbench) · MongoDB · AWS
Microsoft Excel (Solver, Pivot Tables, XLOOKUP, VLOOKUP, Power Query Editor) · Microsoft Power BI · Tableau
Amazon QuickSight · Google Looker · Microsoft Word · Microsoft PowerPoint · Microsoft Azure

Machine Learning & Statistical Analysis:

Linear & Logistic Regression · Decision Trees · Random Forest · Gradient Boosting · Neural Networks
Time Series Forecasting (ARMA, ARIMA, ARCH, GARCH) · Regression Analysis · Trend & Correlation Analysis
Natural Language Processing (NLP)

Data Visualization & Reporting:

Interactive Dashboards · KPIs · R Shiny Apps · Report Automation · OKRs

Business & Soft Skills:

Problem Solving · Data-Driven Decision Making · Critical Thinking · Product Management
Cross-Functional Team Collaboration · Effective Communication · AI Prompting

Professional Work Experience

GESCO Healthcare Private Limited | Mechanical Design Engineer | Chennai, TN, India Jul 2021 – Aug 2022

- Reduced product defect rate by 15% by analyzing test performance data and driving iterative design improvements.
- Decreased material costs by 10% through SolidWorks design optimization and efficiency-driven decision-making.
- Supported regulatory audits by maintaining detailed documentation of product specs and defect investigations.
- Collaborated across QA and manufacturing teams to streamline testing protocols and improve turnaround time.

Relevant Projects

Hult International Business School | Boston, Massachusetts Sep 2024 – Aug 2025

- Airline Delay Analysis (SQL, AWS Athena):** Leveraged AWS S3 and Athena to clean and query large flight delay datasets. Identified root causes of peak-hour delays, delivering actionable insights to improve on-time performance across major airports.
- Financial Portfolio Risk Analysis (SQL, Tableau):** Modeled portfolio risk using SQL to compute returns, volatility, Sharpe ratios, and diversification metrics. Visualized findings in Tableau for stakeholder decision-making in investment planning.
- Mental Health Dashboard (Power BI):** Designed an executive dashboard to track mental health KPIs (e.g., treatment engagement, psychological safety). Used DAX measures to create dynamic filters for HR teams to identify priority segments.

Education

Master of Science in Business Analytics (MBAN) Sep 2024 – Aug 2025
Hult International Business School | Boston, Massachusetts

Master of Science in Mechanical Engineering (MS) Aug 2022 – Feb 2025
University at Buffalo (SUNY) | Buffalo, New York

Bachelor of Engineering in Mechanical Engineering (BEng Hons) Sep 2018 – Jul 2021
University of Huddersfield | Huddersfield, West Yorkshire, UK
