EDUCATION

Georgia Institute of Technology – College of Computing

Atlanta, GA

Bachelor of Science – Computer Science

Graduating May 2026

GPA: 3.72

- Concentrations: Artificial Intelligence and Human-Computer Interactions
- Relevant Coursework: Data Structures and Algorithms (Java), Intro to Object-Oriented Programming (Java), Intro to Computing (Python), Computer Organization and Programming (C++, Assembly), Probability and Statistics, Linear Algebra, Discrete Mathematics, Multivariable Calculus, Machine Learning, Natural Language Processing, Artificial Intelligence, Design and Analysis of Algorithms, Complexity and Automata, Intro to UI Design, Perception & Robotics, Educational Technology

EXPERIENCE

Delta Air Lines

Atlanta, GA

Operations Analysis and Performance Business Unit Intern

May 2025 – August 2025

- Developed Tableau dashboard using SQL-merged data to show key driver trends and support headcount planning for the next year
- Updated and maintained 5+ Tableau dashboards with accurate data sources for leaders to track performance across business units
- Built 2 Python ETL pipelines delivering maintenance email reports to support root cause analysis and optimize headcount planning
- Presented a comment sheet to 3 leaders, enabling them to provide more detailed description, giving an improved task categorization

Envoy Air (American Airlines)

Dallas, TX

Reliability Technical Services Data Analyst Intern

May 2024 – August 2024

- Conducted daily analyses using Excel and pivot tables to identify maintenance trends, enabling corrective action recommendations
- Collaborated with IT and Engineering to create 3 live reports, helping stakeholders develop maintenance plans for healthier planes
- Audited 10+ reports by extracting squawks and data from Cognos to ensure data accuracy, supporting reliable operational insights

Georgia Tech Athletics Department

Atlanta, GA

Marketing Intern

August 2023 – December 2024

- Analyzed fan survey Excel data to identify 5+ game activities, creating recommendations that directly improved student engagement
- Evaluated traffic flow data from 10+ vendor activations, producing insights that reduced congestion and increased interaction time

Leadership in Organizational Networks Lab

Atlanta, GA

Research Assistant

May 2023 – August 2023

- Analyzed how team roles impact responses by integrating biometric and survey data, providing insights into group performance
- Designed and prototyped a Figma data collection platform, streamlining the capture of metrics for correlation and trend analysis
- Conducted experiments, generating a dataset of 500+ video; applied coding and classification techniques for quantitative analysis

Mathnasium

Alpharetta, GA

Math Tutor Lead

June 2021 – August 2022

- Tutored over 50 students to develop and strengthen their fundamental understanding of math subjects like Algebra and Geometry
- Tracked multiple students' process both in school and in our own curriculum to administer work that best suited their needs
- Managed a team of 4 tutors to distribute math practice based on the students' records while overseeing their progress at school

PROJECTS

Smart Stadium (Georgia Tech VIP)

Atlanta, GA

Marketing, Research, and Commercialization Team Member

August 2024 – Present

- Conducted 3 value chain and industry analyses to assess how our product could be positioned within the machine learning landscape
- Researched 10+ patents to avoid intellectual property infringement and provide strategic guidance for our product development

Scheduler App Project

Atlanta, GA

Developer

January 2024 – May 2024

- Collaborated with 2 members to make a scheduler app, allowing students to manage class information in a unified calendar interface
- Utilized Android Studio and Gradle to build the app's front-end and back-end architecture, ensuring a user-friendly experience
- Implemented data storage and retrieval using SQLite, enabling persistent storage of user inputs such as tasks and course details

Software Development Directorship (Alpha Kappa Psi)

Atlanta, GA

UI/UX Designer

May 2023 – May 2024

- Prototyped a platform for members to use during the rush process to more efficiently differentiate and vote to add new members
- Designed and built Alpha Kappa Psi's website, using Figma for initial wireframes that guided overall design and user experience

SKILLS/AWARDS

Technical: Python, Java, JavaScript, C++, Git, SQL, ETL

Tools: GitHub, Tableau, Excel, Figma, Android Studio, Teradata, DBeaver, VSCode, Eclipse, NumPy, Pandas

Affiliations: Society of Women Engineers, GT Design, Alpha Kappa Psi (Professional Co-Ed Fraternity)

Awards: Zell Miller (Full Tuition)

Interests: Crocheting, Weightlifting, Volunteering, Reading, Hiking, Bouldering, NYT Games, Period Piece Dramas
