### SKILLS

---

Software: Data Visualization: Tableau, Power BI, Excel, Looker Studio | Web Analytics: Google Analytics 4, Google Tag Manager | Programming: SQL, Python (ML, NLP), OOPS, Data mining | Databases: Relational Database, MySQL, SQL Server, PostgreSQL, Hive, NoSQL | IDE: Visual Studio, PyCharm, IDLE | Big Data Analytics: Hadoop Ecosystem, Apache Kafka, Azure HDInsight | ETL Tools: SSIS, SSRS, Talend, Informatica | Cloud Platforms: AWS, Azure, Spark SQL | Data Security : Knowledge of data protection principles | Data Modeling: Experience in structuring data | Statistical Analysis: Proficient in analyzing data sets | Project Management: Agile, Scrum, Jira, Salesforce CRM. Soft Skills: Adaptable, Collaborative.

### EXPERIENCE

---

#### Data Analyst

Accenture – Texas Medicaid and Health Partnership (TMHP) June 2024 – August 2024, Austin, Texas, USA

- Collaborated with the Operations team to process and evaluate ideas submitted by Full-Time Employees (FTEs) to enhance operational efficiency and innovation within the Texas Medicaid and Health Partnership program.
- Utilized Excel, Python, Tableau, Power BI, and MySQL to analyze and streamline the idea submission and evaluation process, ensuring data-driven decision-making. Used MySQL for database management and querying to store, retrieve, and organize idea submissions and their corresponding evaluations and accomplished 90% accuracy in metrics.
- Automated data processing workflows, reducing turnaround time by 30% and developed interactive dashboards for providing actionable insights that supported data driven decision making for stake holders.
- Created dashboards and reports using Tableau and Power BI to track idea submissions, evaluate progress, and present actionable insights to stakeholders. Developed Python scripts and utilized PySpark for automating repetitive processes, reducing manual effort, and improving workflow efficiency.

#### Data Analyst - Eclerx

June 2021 – August 2023, Chandigarh, IN

- Handled and processed large-scale datasets for client Enterprise Rent-A-Car, ensuring data accuracy and integrity.
- Integrated using Excel, Python for data processing and transformation, Tableau, Power BI for creating interactive dashboards, and MySQL for database management and querying. Automated repetitive workflows using Python and PySpark, significantly improving efficiency and reducing turnaround times. Worked with proprietary tools tailored to the client's requirements, ensuring customized and efficient solutions for their business needs.
- Coordinated with internal teams and client stakeholders to understand requirements, address challenges, and ensure the timely delivery of high-quality outputs. Conducted meticulous quality checks on data and reports to maintain accuracy and align with client standards and expectations.

#### Technical Operations

Exploring Infinities (now Bhanzu)

February 2021 – June 2021, Hyderabad, Telangana, IN

- Worked with the development team to implement website features using HTML and MySQL, ensuring smooth user experience and effective data management. Used web scraping to extract useful data from websites for analysis and decision-making.
- Used Python and Tableau to analyze data, create dashboards, and automate tasks, improving efficiency. Developed a Tableau dashboard for a marketing campaign that led to a 15% increase in lead conversions. Applied data mining to uncover insights from website data for better campaign targeting.
- Collaborated with business and tech teams to gather requirements and deliver solutions on time. Used data mining and web scraping to extract valuable insights from websites, supporting strategies to grow the business and engage customers.

### EDUCATION

---

#### Masters in Computer Science

University of North Texas . Denton, Texas . 2024 . 3.66/4.0

#### Bachelor of Technology, Computer Science

Lovely Professional University . Punjab, India . 2021 . 7.1/10

### CERTIFICATIONS

---

- Certification for completing Data Science course from UpGrad
- Microsoft Power BI Associate as Certified Data Analyst.
- Google Data Analytics Professional Completed certification.
- AWS Cloud Practitioner certification.
