PROFILE SUMMARY -

Experienced MERN Stack Developer with expertise in Full Stack Web Development, UI/UX design, and Mobile Application Development. Proficient in JavaScript, React.js, Node.js, Flutter, and MongoDB, with a strong foundation in modern development practices and agile methodologies.

SKILLS -

Category	Technologies & Tools
Programming Languages	JavaScript HTML5 CSS3
Frameworks and Libraries	React.js Express.js Node.js Bootstrap Flutter Tailwind CSS
Tools & Platforms	Git Postman Arduino IDE VS Code Android Studio
Databases	MongoDB MySQL
Cloud & DevOps	AWS(S3, EC2, CloudFront) Cloud Deployment CI/CD(GitHub Actions) NPM Package Publishing
Design Tools	Canva FIGMA
Other Skills	REST API Development Responsive UI Design Agile/Scrum

EXPERIENCE –

Full Stack Developer – RunDMS Coimbatore	12/2024 – Presents
- Built and maintained full-stack applications using React.js, Node.js, and MongoDB. - Designed reusable UI components and responsive layouts with Tailwind CSS. - Implemented REST API integrations and optimized performance for real-time data rendering. - Collaborated with a cross-functional Agile team to meet delivery timelines.	
MERN Stack Developer Intern – Why Global Services Chennai	02/2024 – 07/2024
- Built dynamic web modules in React.js and Node.js with MongoDB backend. - Designed RESTful APIs and used Postman for backend service testing. - Improved UI performance and user experience through clean design and reusable components.	

PROJECTS –

React Smart Table

Developed an enterprise-grade React table component with built-in AI assistance, real-time validation and OWASP-compliant security feature. Implements secure server-side AI integration.

React UI Kit

Built a lightweight fully customizable React UI Component library with 19+ accessible, responsive and performance-optimized elements. Features dark mode glassmorphism effect for modern web application.

React Toaster

Created an advanced customizable React toast notification system featuring smart queue management swipe gesture theming and flexible positioning. Lightweight with full TypeScript support.

CollabHub

Developed a collaboration platform with real-time document editing, Kanban task management, GitHub sync, and role-based access control. Included AI-powered code suggestions.

E – Commerce Website for visually Impaired

The main objective was to develop an accessible E – Commerce website, which incorporates voice recognition for navigation and screen reader compatibility to enhance usability.

Food Adulteration

The main objective was to study the practice of food adulteration and contamination by using IoT sensors and all data together in a compressed way with the help of cloud data.

Flood Monitoring with Early Alert

11/2023 – 03/2024

The main objectives are to employ deep learning algorithms utilizing DenseNet and Yolo V3 with IoT sensors for automated flood detection, crucial for warning and evacuating people in flood-prone areas.

EDUCATION -

Bachelor of Engineering in Computer Science

2020 – 2024

Sri Krishna College of Technology

CGPA: 7.68/10

Vijayanta Model Higher Secondary School

2018 – 2020

Percentage: 63.33%

ACHIEVEMENTS -

MSME Idea Hackathon 2.0 - Selected Internally

The MSME Innovative Scheme is an amalgamation of three earlier schemes of the MSME Ministry: Incubation, Design, and Intellectual Property Rights (IPR).

LANGUAGES KNOWN -

English | Hindi | Tamil
