HIGHLIGHTS

- Recent Security Studies (Cyber) and Computer Systems Analysis graduate with hands-on experience as a Cybersecurity Analyst Intern at GoJet Airlines, supporting threat monitoring, log analysis, and incident response activities.
- Demonstrates strong integrity, attention to detail, and a commitment to protecting information systems; skilled with SIEM tools, vulnerability assessment practices, security documentation, and technical troubleshooting across Windows, Linux, and basic networking environments.

WORK EXPERIENCE

Cyber Security Intern

May 2024 – August 2024

Gojet airlines | St. Louis, MO

- Helped monitor business operations in real time through Cisco security applications such as Cisco Secure Endpoint, Cisco Umbrella, and Cisco Cloud.
 - Responded to security alerts such as a firewall breach and a password spray to ensure attackers are not penetrating the network.
 - Assisted with installing Cisco security software on company iPads and making sure the serial number appears in the system before distributing them to employees.
- Used Microsoft Power Automate to simplify the company garage sale process. The application recorded responses via google forms and sent emails to the IT team and HR with the buyer's information and the equipment purchased.
