Google IT Support

Professional Experience

Oak Street Health, Dallas TX | IT Field Technician *Mar 2023 – Present*

- Manage and resolve IT support tickets from initiation to resolution, providing Level 1 and 2 technical-support for a wide range of hardware, software, and network connectivity issues, both remotely and in-person.
- Ensure high availability of critical computers and peripherals, significantly minimizing downtime and improving overall operational efficiency.
- Manage a comprehensive inventory of all IT assets, ensuring accuracy for asset tracking and resource management.
- Lead internal IT projects, focused on asset management and coordinate with external vendors to manage maintenance and repairs for medical equipment.
- Assist with project data entry and cleansing to ensure data accuracy and integrity and create charts and graphs for project tracking and visualization.

Infinite Computer Solutions, Rockville MD | Service Desk Analyst *Dec 2021 – Mar 2023*

- Resolved a high volume of technical issues for end-users, handling everything from initial diagnosis to resolution.
- Decreased average ticket resolution time by 5% to 15% using remote desktop tools and effective triage.
- Collaborated with other IT teams to successfully resolve complex issues, reducing escalation time.
- Drafted self-service knowledge bases, which led to a 10% to 15% decrease in support requests for common issues.

Novo Distribution, U.A.E | Scrum Master *Nov 2021 – July 2022*

- Led all Scrum ceremonies (planning, stand-ups, reviews, retrospectives) for a 9-member data engineering team, resulting in a 20% increase in on-time feature delivery.
- Drove a culture of continuous improvement by coaching the team on Agile and Scrum methodologies, specifically for data pipeline and analytics projects.
- Removed all identified impediments related to data access, infrastructure, and tool dependencies, ensuring the team maintained consistent progress toward sprint goals.
- Collaborated with the Product Owner to prioritize and refine the data project backlog, maximizing the value of each delivered sprint.

Lone Star Auto Import, Dallas TX | Sales Manager *Apr 2014 – Nov 2021*

- Led and mentored a top-performing sales team, consistently meeting and exceeding all revenue and volume goals.
 - Analyzed sales and inventory data to drive strategic decisions, improving operational efficiency and profitability.
 - Collaborated with finance and service teams to enhance the customer experience and drive repeat business.
