PROGRAM MANAGER | SOFTWARE ENGINEER | TECHNICAL CONSULTANT | PRODUCT MANAGER

Results-driven project manager, software engineer, and technical consultant with a track record of optimizing processes, improving system efficiency, and driving business value through cloud computing and software development. Adept at leading cross-functional teams, streamlining operations, and delivering high-impact solutions in fast-paced environments.

KEY SKILLS

Cloud Computing | Network Administration | Project Management | Database Administration | Application Development | Optimization | Analysis | System Maintenance

TECHNICAL SKILLS

Programming Languages: Java | PHP | SQL | Python | C | C# | HTML | JavaScript | CSS | PySpark.

Technologies and Tools: Azure Data Factory | Azure Synapse | Azure Databricks | Visual Studio Code | Microsoft Suite | MySQL | Microsoft SQL Server | R Studio | AWS

PROFESSIONAL EXPERIENCE

Paycom, Dallas, Texas

July 2023-

Senior Software Developer

- Pioneered the development of over **50** cutting-edge payroll system converters, resulting in a remarkable up to **50%** increase in processing speeds, optimizing payroll operations and significantly reducing time and resource overhead.
- Collaborated with 7-member Agile team; resolved dev blockers, ensured sprint goals, and led feature planning.
- Orchestrated and led client meetings, ensuring satisfaction through meticulous follow-up and feedback mechanisms, fostering enduring relationships and project success.
- **Designed and implemented PHP-based solutions** for payroll system enhancements, improving system functionality and user experience.

Microsoft, Dallas, Texas

August 2022-July 2023

Technical Consultant

- Guided a 10-member team through infrastructure modernization using **Azure, Terraform, and Python**, boosting deployment efficiency.
- Designed and optimized **data pipelines (Azure EventHub, Synapse, Data Factory)** with built-in data validation.
- Contributed to cloud infrastructure planning and automation, aligning with enterprise DevOps standards.
- Participated in Agile ceremonies and collaborated cross-functionally to identify and resolve blockers.

Software Engineer, Remote

May 2021–August 2022

Footlocker

- Spearheaded the design and development of an innovative **"Image Color Analysis"** tool for Footlocker, leveraging **Java, Python, OpenCV** library, **Machine Learning**, and **Kafka** networking to conduct individual pixel analysis on images, resulting in streamlined color scheme updates and significant operational efficiencies.

University of Maryland, College Park, Maryland

August 2021–May 2022

Information Support Technician

- Provided expert Help Desk support for PC hardware and software, adeptly diagnosing, troubleshooting, and resolving client issues while ensuring optimal system performance.
- Interfaced with faculty and staff, maintaining clear communication under pressure to resolve urgent issues.

EDUCATION

Bachelor of Science B.S. Information Science, Data Science Specialization

University of Maryland College Park, MD (May 2022)
