Summary

Dynamic Project Engineer with 1+ year of experience at Wipro, specializing in Python development, back-end engineering, and cloud technologies (AWS, Azure). Proficient in Python, Java, SQL, and experienced in building scalable applications, ETL pipelines, and Big Data solutions using Hadoop and Spark. Skilled in Flask, Django, Spring Boot, and RESTful APIs to develop high-performance back-end systems. Hands-on with AWS services (S3, EC2, Glue, Redshift) and DevOps tools (Docker, Kubernetes, Jenkins). Interested in collaborating in Agile teams and passionate about leveraging technology to solve complex challenges and optimize system performance.

Technical Skills

- **Languages:** Python, Java, Javascript, C, SQL, Scala, Shell Scripting
- **Frameworks and Libraries:** Spring Boot, Flask, Django, Pandas, NumPy, Bootstrap
- **Web Technologies:** HTML, CSS, React, Angular
- **Big Data:** Hadoop, Spark, Hive, Apache Airflow
- **Cloud Platforms:** AWS (S3, EC2, Redshift, Glue), Azure
- **Databases:** MySQL, PostgreSQL, MongoDB, Cassandra
- **DevOps and Tools:** Docker, Kubernetes, Jenkins, Git, Ansible
- **APIs:** RESTful APIs, GraphQL
- **Testing:** Junit, PyTest, Selenium
- **ETL Development:** Building pipelines, data ingestion and processing

Experience

Project Engineer

Wipro Ltd

Hyderabad, India

May 2022- Aug 2023

- Project Engineer with hands-on experience in Python development at Wipro, specializing in designing and implementing scalable solutions for data processing, automation, and software optimization.
- Proficient in Flask and Django, contributing to the development of RESTful APIs and robust backend systems while collaborating with cross-functional teams to enhance performance and reliability.
- Experienced in working with Big Data tools (Hadoop, Spark) and cloud platforms (AWS, Azure), along with expertise in ETL pipeline development, DevOps tools (Docker, Kubernetes, Jenkins), and database management (MySQL, PostgreSQL, MongoDB, Cassandra).
- Passionate about leveraging Python, automation, and cloud technologies to drive innovation, optimize software efficiency, and deliver high-impact solutions.

Project Engineer, Intern

Wipro Ltd

Hyderabad, India

Mar 2022 - May 2022

- During the internship, I built a strong foundation in Python programming and gained hands-on experience with Flask and Django for developing basic backend applications and APIs. Explored database management using MySQL, PostgreSQL, and MongoDB, learning to perform queries and optimize data storage.
- Gained exposure to Big Data technologies like Hadoop and Spark, understanding their role in processing large-scale datasets. Developed a fundamental understanding of cloud platforms (AWS, Azure) and worked with services like S3, EC2, and Redshift to deploy and manage applications.
- Learned DevOps practices, including Git for version control, Docker for containerization, and Jenkins for CI/CD pipelines. Collaborated in an Agile development environment, participating in code reviews, debugging sessions, and team discussions to enhance software development skills.

Projects

Farm to Plate

- Developed a secure e-commerce platform that connects farmers directly with consumers, eliminating middlemen and ensuring transparent and fair trade
- Tools Used: HTML, CSS, JavaScript, Python, PHP, Flask, Django, MySQL, PostgreSQL, Hadoop, Spark, Multi-Factor Authentication (MFA), Secure Payment Gateway, Role-Based Access Control (RBAC), HTTPS encryption.

Game Controlling using Hand Gestures

- Designed and developed an innovative gaming project that allows players to control video games using hand gestures, providing a unique and immersive user experience.
- Tools Used: OpenCV, Mediapipe Hands, Python, NumPy, SciPy, Pygame

Smart School Bus

- Developed a school bus safety system using RFID technology for student identification and real-time tracking to ensure secure and accountable transportation.
- Tools used: RFID Reader & Tags, GPS Module, GSM Module, C++ Google Maps API

Education

Webster University

2023 – 2025

Masters in Information Technology and Management

- GPA: 3.9/4.0
