Project: A comprehensive analysis of Meta's content moderation challenges and the proposed AI-powered solution to enhance platform safety across diverse global markets.

Bachelor of Engineering (B.E.), from Osmania University | (Hyderabad, India). Oct 2014 - June 2019
Concentration in **[Electronics & Instrumentation Engineering]**

Project: Automated Irrigation Monitoring for Agricultural Crops Using GSM and Sensors through Arduino IDE.

PROFESSIONAL SKILLS

- **Technologies/OS:** SAP Basis, S/4 Hana, SAP BTP, AWS (Ec2 & ECS), Linux/Unix, Windows, R, Python (NumPy, Pandas, Matplotlib)
- **Databases:** SQL, Oracle, Hana & MySQL
- **Business/Data Analytics:** Data Cleaning, Data Validation, Data Visualization (MS Excel, Tableau).
- **Project Management:** Agile, Waterfall, Project Planning & Execution, Risk Management & Scrum Methodologies.

PROFESSIONAL EXPERIENCE

SAP Basis Administrator | Alight Solutions India Pvt Ltd. | Hyderabad, India Aug 2021 – Aug 2023

Responsibilities:

- Monitored and maintained **SAP ABAP/Java stacks, using SM37, ST22, ST06, and CCMS** to troubleshoot performance issues and ensure stable system uptime.
- Administered **SAP HANA & Oracle databases, performing backups, restores, patch upgrades, and Linux/Windows OS hardening**, ensuring secure and compliant landscapes.
- Assisted with **system refreshes, client copies, kernel upgrades, SPAM/SAINT updates**, and support pack installation, reducing downtime and streamlining maintenance windows.
- Managed **CUA user/role administration, SU01 user management, inactive client decommissioning**, and access controls, supporting audit compliance and security best practices.
- Automated daily Basis checks, log reviews, and **KPI reporting using Python scripts and SAP Solution Manager tools**, reducing manual effort by 30% and improving operational efficiency.

Associate - Retail Process | Amazon Development Centre India Pvt Ltd. | Chennai, India July 2021 – Sep 2021

Responsibilities:

- Managed and optimized 2,000+ product listings, ensuring accuracy, compliance, and improved search visibility to drive higher conversions.
- Audited and corrected product metadata, reducing suppressed ASINs by 15% and maintaining catalog quality standards.
- Analyzed catalog trends and developed reporting dashboards to monitor discoverability and compliance KPIs for leadership review.

Network Engineer Trainee | Gigabyte Technologies | Hyderabad, India June 2019 – July 2021

Responsibilities:

- Assisted in configuring and troubleshooting routers, switches, and modems to ensure reliable broadband and enterprise connectivity.
- Supported LAN/WAN installations, including IP addressing, subnetting, VLAN setups, and firewall configurations, reducing recurring client issues by 15%.
- Delivered first-level technical support to clients, resolving connectivity incidents via remote tools and onsite visits, improving resolution time by 20%.
- Configured and maintained core network services DNS, DHCP, VPN while documenting network topologies, incident resolutions, and maintenance activities to strengthen troubleshooting efficiency and knowledge sharing.
