SUMMARY

Data Analyst with 4+ years of experience leveraging data to drive business performance and strategic decision-making. Proficient in SQL, Power BI, Tableau, and advanced Excel, with a strong background in developing interactive dashboards, automating reporting processes, and ensuring data accuracy and integrity. Adept at translating complex datasets into clear, actionable insights and presenting findings to both technical and non-technical stakeholders. Recognized for improving reporting efficiency, enhancing forecasting accuracy, and supporting cross-functional teams in achieving operational and financial goals.

EDUCATION AND TRAINING

University of Central Missouri | *BACHELOR OF SCIENCE, COMPUTER SCIENCE*

Dec 2024

EXPERIENCE

Sodexo | *Data Analyst*

Aug 2025 - Present

- Collaborated with business leaders to define KPIs and develop interactive dashboards in **Power BI** and **Tableau**, improving operational efficiency across catering, facilities, and workforce management.
- Transformed raw datasets into **actionable insights** to support financial close processes, budgeting cycles, and enhance forecasting accuracy.
- Streamlined recurring reporting by **automating workflows** with SQL, Python, and advanced Excel, reducing manual effort while increasing timeliness and data accuracy.

EQUIFAX | *Data Analyst*

Dec 2024 - Jul 2025

- Designed interactive dashboards using Power BI and Tableau to track KPIs and monitor customer performance while ensuring data integrity.
- Addressed ad hoc analytical requests by crafting complex SQL queries and leveraging advanced Excel models to deliver actionable insights.
- Documented scalable BI processes and collaborated with engineering teams to support data pipeline maintenance and secure data practices.
- Cooperated with finance and operations teams to define KPIs and generate analytical reports that informed executive decision-making.

ABBOTT | *Data Analyst*

May 2022 - May 2023

- Directed the migration of manual reports to dynamic Tableau dashboards, streamlining data visualization and enhancing reporting efficiency.
- Managed full-cycle analytics projects from data collection and cleaning to transformation and visualization using SQL and advanced Excel.
- Articulated data insights through visual storytelling to promote data-driven decision-making and support product strategy.
- Utilized statistical analysis to uncover trends and validate hypotheses, proposing actionable improvements for operational processes.

ACCENTURE | *Data Analyst Intern*

Feb 2021 - May 2022

- Automated data workflows, improving speed and consistency of reporting across business units.
- Built executive dashboards in Power BI and Tableau for key metric tracking.
- Used SQL and Python to clean, merge, and analyze large datasets; supported exploratory data analysis and business reporting.
- Worked closely with stakeholders to define KPIs and ensure analytics aligned with business priorities.

SKILLS

- **Skills:** Statistical Modeling & Predictive Analysis, Data Wrangling & ETL Processes, Dashboard Development & KPI Monitoring, Business Intelligence Reporting
- **Data Visualization:** Power BI, Tableau, Amazon QuickSight
- **Analytics Programming:** SQL, Python (Pandas, Numpy), Excel, R
- **BI & Automation Tools:** Power Automate, Power Apps, AWS Redshift
- **Cloud Platforms:** AWS, Snowflake, Google BigQuery
- **Domain Exposure:** Marketing Analytics, Finance, Operations, Education

CERTIFICATIONS

- Microsoft Certified: Data Analyst Associate (PL-300)
- Kabyle Micro-Certifications: Python & Pandas

LANGUAGES

- English (Advanced)
