

ADITI RAWAT

7408250511 | arawat1@kent.edu | www.linkedin.com/in/eraditirawat | <https://github.com/aditi2495>

Ohio, USA

SUMMARY

Data Analyst with 2+ years of experience in **SQL Server, Power BI, Python, and Excel**. Skilled in developing dashboards, automating reporting workflows, and cleaning and validating large datasets. Adept at translating business needs into technical solutions, improving process efficiency, and delivering actionable insights. Familiar with the **Software Development Life Cycle (SDLC)** and experienced in supporting analytics and reporting deliverables across its phases — from requirements gathering through deployment.

SKILLS

Technical: SQL Server, Power BI, Tableau, Python, Excel, MySQL, PostgreSQL

Data & Analytics: Data cleaning/validation, ELT, dashboard design, business intelligence, predictive modeling

Methodologies: SDLC, Agile basics

Tools & Platforms: AWS, Git

Soft Skills: Collaboration, stakeholder communication, process improvement, mentoring

EXPERIENCE

Ecocapita Consulting | India

Feb 2022 – Dec 2023

Data Analyst

- Analyzed generator runtime data from mixed sources (including logs and spreadsheets) by customer in **Python** and cut idle runtime **6%**, saving 120T CO₂ via an automated shutdown script.
- Built three **Power BI** dashboards for revenue, client engagement, and GHG baselines; eliminated **60 %** of manual Excel reporting time and enabled real-time KPIs.
- Utilized **SQL, Python, and Power BI** to cluster 15-minute meter and production data into tariff blocks, enabling off-peak scheduling of non-critical processes and resulting in a reduction in energy usage and CO₂ emissions.

JNCT University | India

Jan 2021 – Feb 2022

Technical Instructor

- Taught **Python**, machine learning, and **OOP** to 200+ undergraduates.
- Developed a data pipeline using Excel and Power Query to integrate and monitor student records from semi-structured academic datasets.

MPC College | India

July 2017 – Jan 2018

Assistant Professor

- Delivered **OOPs** and **software-engineering** lectures to 150+ students; introduced Git-based group projects and boosted project completion rate by **15%**.
- Mentored 10 capstone teams on relational-database design and **SQL** query optimization.

EDUCATION

Kent State University, Kent State Kent, OH Master of Science Specialization: Business Analytics	Graduated May 2025
Jayoti Vidyapeeth Women's University Jaipur, India Master of Technology Specialization: Machine Learning	Graduated Dec 2020
Rajiv Gandhi Proudyogiki Vishwavidyalaya (R.G.P.V) Bhopal, India Bachelor of Engineering Majors: Computer Science and Engineering	Graduated May 2017

ANALYTICS PROJECTS

- **Credit Card Customer and Transaction Analysis | Self-Initiated** April 2025
Designed two Power BI dashboards with dynamic filters and key KPIs (revenue, transaction count, interest). Identified key segments—graduates, self-employed, and blue card users—as top contributors to \$57M revenue and high bill payments.
- **Sales Market Segmentation & Analysis | Self-Initiated** March 2025
Analyzed 600+ restaurant orders using SQL to uncover sales trends by joining order and menu data. Identified top items (e.g., Burger, Coke), peak hours (12–2 PM), and high-revenue categories, recommending stock prioritization and lunch-hour promotions.
- **COVID-19 Patient Outcome Prediction | Thesis work** Dec 2020
Conducted a thesis project to predict COVID-19 patient outcomes (recovery or death) using a real-world dataset of 1,085 patient records containing demographic and clinical features such as age, gender, location, and exposure. Performed exploratory data analysis, handled missing values, and encoded categorical features. Built and evaluated models including Logistic Regression, Decision Tree, Random Forest, and XGBoost. The XGBoost classifier achieved the highest accuracy of **92.2%** for recovery and **95%** for mortality prediction. Demonstrated strong skills in Python, Scikit-learn, EDA, and healthcare-focused predictive modeling.

CERTIFICATIONS AND ACHIEVEMENTS

- **AWS Cloud Practitioner Essentials** — Amazon Web Services (AWS) Jul 2025
- **Hospital Analytics** — Maven Analytics Jul 2025
- **Advanced MySQL for Data Analysis** — Analyst Builder May 2025
- **Microsoft Power BI Desktop for Business Intelligence** — Analyst Builder May 2025
- **Data Analysis with Python** — Coursera Oct 2022
- **Technical Program Committee Member & Reviewer**, ICCCT 2023 — Soft Computing Research Society (*Registered under the Societies Registration Act XXI of 1860*) Jan 2023
