

ADITYA CHUNDURI

Los Angeles, CA | (678) 776-0805 | chunduri@usc.edu | linkedin.com/in/chunduriaditya | github.com/Chunduri-Aditya

EDUCATION

University of Southern California	Los Angeles, CA
Master of Science in Applied Data Science	January 2024-Present
Coursework: Machine Learning, EDA, Data Analytics, Algorithms, ETL Techniques, Information Retrieval, Data Mining, LLMs, NLP	
SRM Institute of Science and Technology	Chennai, India
Bachelor of Technology in Computer Science & Engineering	June 2019-July 2023
Specialization: Artificial Intelligence & Machine Learning	

TECHNICAL SKILLS

- Languages & Tools: Python, SQL, R, Java, C++, Scala, Bash, TensorFlow, PyTorch, Keras, Scikit-learn, Spark, Hadoop, Pandas, NumPy, Matplotlib, Tableau, Excel, AWS SageMaker, Azure, Hugging Face, Librosa, Whisper, Demucs, spaCy, Selenium, Git, GitHub, Gradio - RPA & Automation: UiPath (Studio, Orchestrator, Selectors, DataTables, Excel/PDF/Email automation) - Databases & BI: PostgreSQL, SQLAlchemy, Power BI (DAX, dashboards), Tableau, Jinja2 (HTML → PDF reports) - Core Areas: ML, DL, GenAI (LangChain, LCEL, LangGraph, CrewAI, Pinecone, ChromaDB, Watsonx.ai Granite), Data Engineering, Predictive Analytics, Statistical Modeling, Visualization, Automation	
---	--

EXPERIENCE

University of Southern California	Los Angeles, CA
Research Assistant	August 2024-December 2024
- Preprocessed 10K+ retinal fundus scans, generating high-quality segmentation masks for U-Net and CNN models - Fine-tuned advanced U-Net models using published research insights, enhancing cardiovascular detection accuracy by 20% - Led weekly Zoom presentations with 5+ peers and professors, improving collaboration, research alignment, and visibility	
SSN College of Engineering	Chennai, India
Research Assistant	June 2021-July 2021
- Collaborated with faculty and peers on YOLOv5 CNN models, achieving 92%+ precision on aerial datasets - Optimized ETL and large-scale video preprocessing workflows, reducing pipeline execution time by nearly 25% - Developed interactive visualization dashboards, accelerating analytical decision-making speed and operational efficiency by 25%	

PROJECTS

AwakenTrails AI Content Factory	August 2025-Present
- Automated content pipeline with LangChain + Ollama, Stable Diffusion, Coqui TTS, MoviePy for 10+ reels - Initiated human-in-loop review for 10+ scripts, streamlining approvals and enabling consistent brand quality	
Model Behavior Lab	July 2025-August 2025
- Constructed evaluation platform with Ollama + JSON pipelines benchmarking LLMs on logic, emotion, hallucination, code - Designed Matplotlib dashboards comparing Phi-3, Mistral, Samantha, delivering detailed 360° model performance insights	
AI Health Journal – LLM Insight Tracker	May 2025-June 2025
- Developed journaling assistant using LangChain, Pinecone, Flask, phi3-3.8B, generating personalized health insights - Added Whisper transcription + Mistral-7B prompts, building a complete GenAI pipeline for real-world applications	
AI RemixMate – Intelligent Song Mixer	January 2025-April 2025
- Engineered remix system with Whisper, MFCCs, Demucs, blending 40+ songs with 85% transition smoothness - Verified with testers to refine auto/manual modes, validated at 90% smoothness across 50+ tracks	
ChatDB – NLP Query Engine	August 2024-December 2024
- Collaborated with 2 peers to build spaCy + regex query engine for SQL/NoSQL, improving translation accuracy by 25% - Prototyped RAG-based code assistant, accelerating developer query generation by 25% in internal tests	
Rotten Tomatoes & IMDb Review Analysis	March 2024-May 2024
- Scraped 10K+ reviews via Selenium, performing sentiment analysis and correlating results with IMDb ratings - Found 40% alignment between Rotten Tomatoes polarity and IMDb ratings, showing measurable sentiment divergence
