

ADITYA DESHPANDE

New York, NY | (+1) 551-261-2249 | amd9295@nyu.edu |  [aditya-m-deshpande](#) |  [adityadeshpande](#)

EDUCATION

NEW YORK UNIVERSITY - COURANT & STERN

New York, US

Master of Science in Information Systems [GPA: 3.7/4.0]

09/2023 - 05/2025

- Coursework: Data Science, Database Systems, AI in Business, Product Management, Operations Management

UNIVERSITY OF MUMBAI

Mumbai, IN

Bachelor of Technology in Mechanical Engineering [GPA: 3.9/4.0]

08/2019 - 05/2023

- Coursework: Project Management, Supply Chain Analytics, Big Data Analytics, Machine Learning, Data Networking

EXPERIENCE

SQOR AI

New York, NY

AI & Data Integrations Analyst

07/2025 - Present

- Designing KPI frameworks for **500+** metrics, reducing reporting time by **40%** and enabling real-time dashboards
- Developing SQL/Python ETL pipelines integrating multi-source SaaS data, increasing data accuracy by **35%**
- Building Power BI/Tableau dashboards with AI-powered anomaly detection, cutting incident detection time by **30%**

COVENANT HOUSE

New York, NY

Data Analyst Intern

02/2025 - 06/2025

- Analyzed survey and program data to identify trends, improving program outreach and service delivery by **15%**
- Automated Excel and SQL-based reporting workflows, saving **8+** hours/week in manual reporting effort
- Presented actionable insights to leadership, leading to policy changes that increased service adoption rates by **8%**

CANTOR FITZGERALD

New York, NY

Data Analytics Intern

06/2024 - 08/2024

- Created Power BI dashboards from Microsoft Sentinel logs, improving SOC alert resolution speed by **25%**
- Optimized SQL queries for large-scale log retrieval, cutting execution times by **30%**
- Identified log anomalies, reducing false positive security alerts by **20%**

BHABHA ATOMIC RESEARCH CENTRE

Mumbai, MH

Machine Learning Research Intern

02/2023 - 06/2023

- Researched ML-based rotor unbalance detection, reducing balancing time and operational costs by **2%**
- Trained time-series classifiers with Scikit-learn on **500K+** signals, improving fault detection and diagnostics by **30%**
- Engineered temporal features using NumPy, Pandas, and visualized patterns via Matplotlib for interpretability
- Documented workflows, model performance, and insights for integration into predictive maintenance systems

REWORKED AI

Miami, FL

Data Analyst Intern

06/2022 - 11/2022

- Evaluated AI campaign performance metrics, improving targeting accuracy and reach by **18%**
- Built integrated reporting pipelines for cross-team access, reducing stakeholder query resolution time by **25%**
- Provided optimization recommendations to leadership, shaping outreach strategy for environmental projects

ADVENTURE ADVERTISING

Mumbai, MH

Data Analyst Intern

01/2021 - 08/2021

- Applied cohort-based churn models using Pandas to analyze customer behavior, improving customer retention by **6%**
- Boosted campaign ROI by **10%** via A/B testing and funnel optimization using Google Analytics, SQL, and segmentation
- Suggested audience targeting improvements, increasing ad engagement by **15%**

TECHNICAL SKILLS

- **Data Analysis & Visualization:** SQL, Python (Pandas, NumPy, Matplotlib, Seaborn), Power BI, Tableau, Excel (Power Query, PivotTables), Google Analytics
- **Programming & ML:** Python (NumPy, Pandas, SciPy, Seaborn, PyTorch, TensorFlow, Matplotlib), SQL, C
- **ETL & Data Engineering:** Snowflake, Microsoft SQL Server, MySQL, PostgreSQL, Azure Data Studio, ETL/ELT Pipelines, Data Quality Validation
- **Statistics & Analytics:** Descriptive & Inferential Statistics, Hypothesis Testing, A/B Testing, KPI Design

ADDITIONAL INFORMATION

- International Research Journal of Engineering and Technology - "[Shipment Time Prediction using Machine Learning](#)"
- Design Patent - "A Prosthesis Hand" (Patent No. 202321057730, Issued Dec 8, 2023)
