Profile

As an accomplished Data Analyst with a track record spanning 2+ years, I bring robust experience in the comprehensive spectrum of data collection, analysis, and visualization. My proficiency lies in harnessing statistical tools and software to dissect data, discern patterns, and extract actionable insights. Through my tenure, I have consistently demonstrated a knack for collaborating effectively with diverse cross-functional teams, contributing to streamlined processes, and catalyzing business expansion initiatives.

Skills

Languages: Python (Pandas, NumPy, Matplotlib, Seaborn), SQL, NoSQL

Frameworks & Tools: Flask, Django, Git, GitHub, Docker, CI/CD, Statistics, Hadoop, PySpark, ggplot2

Databases: MS-SQL, MySQL, Redshift, Snowflake, Big Query, PostgreSQL, MongoDB

Data Analysis & ETL Tools: Power BI, Tableau, Data Bricks, MS Excel, Google Analytics, Machine Learning, Data Modeling, Data Mapping, Data Mining, Data Extraction, Transformation

Soft Skills: Data Visualization, Problem-Solving, Statistical Analysis, Product Strategy, Data Warehousing, Critical Thinking

Professional Experience

Data Analyst, KPMG 01/2023 – present | Remote, USA

- Utilized Python libraries including Pandas, NumPy, and Seaborn for data analysis and visualization tasks, enhancing data-driven decision-making processes, achieving improvements of approximately 25% in data processing speed.
- Employed SQL and NoSQL databases, such as MySQL, to seamlessly extract, transform, and load diverse datasets, facilitating advanced analytics and actionable insights with an 30% efficiency gain.
- Developed and maintained data pipelines using frameworks like Flask, Git, ensuring version control and collaboration among team members, resulting in a 15% approximately reduction of errors.
- Implemented data analysis methodologies and statistical techniques to derive actionable insights and inform strategic decision-making processes, resulting in an increase in productivity by 20%.
- Designed and optimized data models for efficient storage and retrieval, utilizing tools like Power BI & Tableau for data visualization and reporting, reducing 40% time for report generation.
- Conducted data mapping and transformation activities, ensuring data integrity and consistency across different systems and platforms, achieving a data accuracy improvement of 95%.
- Applied machine learning algorithms and techniques to uncover patterns and trends in large datasets, facilitating predictive analytics and forecasting with an over 85% accuracy rate.

Data Analyst, Regeneron 08/2022 – 12/2022 | Tarrytown, USA

- Collaborated with the Data Science Analyst and stakeholders to enhance decision-making using advanced BI analytics and modeling, achieving a 15% improvement in forecasting accuracy for Value-Based Care contract performances.
- Implemented Tableau for dynamic dashboard creation, achieving 20% faster critical information dissemination while ensuring comprehensive stakeholder communication and meticulous data request tracking.
- Enhanced data warehousing best practices, optimizing storage and retrieval performance, achieving a 30% reduction in data retrieval time and maintaining 95% adherence to data governance standards.

Data Analyst, T.I.M.E Institute 01/2020 – 12/2020 | Gandhinagar, India

- Employed state-of-the-art data analytics tools such as Python and SQL to intricately analyze a dataset comprising over 5,000 student reviews.
- Enabled the pinpointing of primary factors influencing attendance and retention. Formulated a data-centric relocation strategy, culminating in a substantial 35% rise in attendance and a 12% boost in enrollments over nine months.
- Harnessed visualization tools like Tableau and Power BI to provide a holistic view of student feedback, bringing to light location as the prime impediment to attendance and retention.
- Orchestrated a thorough survey of 1,000+ students. Using the accrued data, conceived and executed a strategic relocation initiative, yielding a 35% upswing in attendance and a 12% increment in new student sign-ups within a short nine-month timeframe.

Education

Master of Science, Stevens Institute of Technology
Engineering Management

08/2021 – 05/2023 | Hoboken, USA

Bachelor of Technology, Institute of Advanced Research
Biotechnology

08/2017 – 08/2021 | Gandhinagar, India
