

Adriana Jaramillo

Senior Software Quality Engineer

✉ Adriana.jaramillo.aj@gmail.com

☎ (786)-312-8102

🏠 Miami, FL

Detail-oriented and analytical professional with 5+ years of experience in software quality assurance, data analysis, and process optimization within regulated and fast-paced environments. Proficient in leveraging business intelligence tools and scripting languages to identify trends, resolve technical issues, and drive performance improvements. Proven ability to collaborate cross-functionally, manage vendor relationships, and support operational efficiency through documentation and team training. Excels at balancing tactical problem-solving with strategic vision to enhance digital systems performance.

Skills

- Data Analysis: SQL, Snowflake, Power BI, Tableau
- Monitoring Tools: Datadog, Grafana
- POS Systems & Order Injection
- Root Cause Analysis & Issue Resolution
- Software Testing & QA (Manual & Automated)
- Agile & Sprint-Based QA Lifecycle
- Compliance: DFARS, COC, AS9100
- Digital Order Aggregation & System Health Monitoring
- Process Optimization & Documentation
- Technical Communication & Report Writing
- Automation Scripting (Python, SQL, JavaScript)
- Strong Interpersonal & Vendor Collaboration Skills
- Software Testing & QA (Manual & Automated)
- Agile & Sprint-Based QA Lifecycle

Experience

Quality Systems Specialist | Boeing

August 2023 – February 2025

- Dashboard Development: Design, implement, and maintain interactive dashboards to visualize quality metrics and performance indicators, enabling data-driven decision-making.
- Data Analysis: Collect, analyze, and interpret data related to product quality, customer feedback, and process performance to identify trends and areas for improvement.
- Process Improvement: Collaborate with cross-functional teams to develop and implement process improvement initiatives aimed at enhancing product quality and customer satisfaction.
- Executive Reporting: Develop comprehensive executive reports that summarize quality performance, key metrics, and improvement initiatives, providing insights for senior management.
- Actionable Insights: Provide actionable insights and recommendations based on data analysis to support strategic planning and resource allocation related to quality initiatives.

Quality Assurance Engineer | West Carry Group

August 2023 -December 2024

- Executed comprehensive QA testing across web and mobile platforms, ensuring functionality, usability, and performance.
- Participated in Agile ceremonies and collaborated cross-functionally to align QA processes with sprint goals and dev timelines.
- Developed and maintained test plans for regression, integration, and smoke testing, using both manual and automated approaches.
- Designed low-code and Python-based automation scripts to validate APIs and infrastructure response times.
- Verified backend service integrity, including API endpoints, error handling, and performance thresholds.

Lead Quality Assurance Data Analyst |Popeyes / RBI

May 2022 -July 2023

- Supported comprehensive testing across various platforms, emphasizing user experience, accuracy, and functionality
- Partnered with project managers for integration testing, fostering seamless communication between systems.
- Established rigorous testing procedures to validate reliability and accuracy.
- Led projects within Agile frameworks, managing deadlines, coordinating testing efforts, and aligning quality initiatives with organizational objectives.
- Executed end-to-end testing life cycle, from test plan design to execution and reporting, mirroring product optimization processes in a digital environment.

Quality Assurance Lead | Verizon Wireless

June 2016 - July 2019

- Led end-to-end testing efforts across live and simulated network environments, ensuring infrastructure reliability and field performance.
- Managed test suite coordination and network field validation for new hardware and software rollouts.
- Collaborated with infrastructure, manufacturing, and third-party partners to resolve system-level issues.
- Provided technical mentorship and training to on-site and offshore QA teams.
- Validated network integrity and identified high-risk failure points across critical systems.

Quality Assurance Tester | Dulayne Inc.

October 2014 - October 2015

- Developed and executed test plans to ensure high-quality and reliable mobile and web applications.
- Collaborated closely with the development team to identify and resolve technical issues, improving overall functionality and user experience.
- Utilized JIRA to report and assign bugs and fixes, effectively communicating with cross-functional teams and stakeholders.
- Conducted thorough manual testing of mobile and web applications against the test plan and specifications to verify compliance.
- Contributed to continuous improvement of testing processes and methodologies, actively participating in streamlining workflows and enhancing efficiency.

Education

Miami Coral Park Sr High School

Florida International University

- Bachelor of Science: Mechanical Engineering
- Bachelor of Arts: Applied Natural Sciences

University of Florida

- Masters: Medical Physiology & Pharmacology
