EDUCATION

MCPHS University, Boston, MA

MS in Pharmaceutical Economics and Policy

2022-2024

Coursework: Introduction to Health Economics and Outcomes Research, Epidemiology, Biostatistics, Regression Analysis, Healthcare decision analysis, Health Services and Outcomes Research, Market access, pricing and reimbursement of pharmaceuticals and medical devices in the US and the global market, Pharmacoepidemiology Applications, Health Policy Development, and analysis, Clinical Research.

Crescent College Of Pharmaceutical Sciences, Kerala, India

2015-2021

Doctor of Pharmacy (PharmD)

WORK EXPERIENCE

CVS - Pharmacy Technician

Boston

Aug 2024 - Present

- Assisted pharmacists with prescription preparation, verification, and dispensing while ensuring compliance with regulations.
- Resolved medication coverage issues by coordinating with patients and insurance providers, utilizing knowledge of health policies.
- Maintained accurate patient records and ensured HIPAA compliance, drawing on experience in clinical data management.
- Analyzed prescription trends to optimize inventory and improve cost efficiency.
- Streamlined inventory tracking and patient care processes to improve workflow efficiency.
- Accurately transcribed and entered prescription orders into the system, ensuring pharmacist verification and timely dispensing.
- Ensured prescriptions were dispensed to the correct patient, verifying identity and delivering professional service at point-of-sale.
- Operated the pharmacy cash register in compliance with company policies, accurately processing transactions including credit/debit cards, EBT, gift cards, cash, and checks while following all cash-handling and loss prevention protocols.

Medical Economics & Outcomes Research Projects

Aug 2022 – May 2024

MCPHS University – Boston

- Conducted advanced medical cost analysis and health outcomes research as part of graduate coursework in Health Economics, Biostatistics, Regression Analysis, and Pharmacoepidemiology Applications.
- Analyzed trends in health resource utilization among chronic disease populations using claims data (ICD-10, HCPCS) and public health databases (SEER).
- Led a project assessing the cost-effectiveness of pre-diabetes screening among overweight and obese adults in the U.S., incorporating Markov models and real-world data.
- Developed a value-based access and pricing dossier for INPEFA® (Sotagliflozin) focused on its impact on cardiovascular and diabetic care costs.
- Applied statistical technique using SAS for data interpretation and trend identification; translated findings into clear data visualizations and actionable insights.

LISIE HOSPITAL, India

Research Coordinator - Clinical Pharmacologist

Feb 2022 – Aug2022

- Reviewed and modified study protocols to enhance accuracy and efficacy.
- Collaborated with a team of physicians on investigator-initiated research focused on statin therapy and cholesterol outcomes.
- Maintained study documentation in compliance with regulatory guidelines.
- Participated in multidisciplinary research meetings with clinicians and hospital leadership to plan study execution.
- Developed, reviewed, and revised SOPs for research activities.
- Prepared detailed reports and presentations based on experimental results.
- Contributed to method development and validation projects, improving research methodologies.

GIMCARE HOSPITAL, India

Clinical Research Coordinator Intern

Jul 2021- Sept 2021

- Collaborated closely with physician investigator during patient screening, informed consent, and protocol adherence.
- Conducted monitoring visits, resolved issues, and reported adverse events.
- Assisted in training new research interns and supported study recruitment efforts.
- Supported endocrinology investigators in data abstraction and preliminary analysis for studies on glycemic control and treatment outcomes.

- Facilitated insurance approvals for study participants and coordinated test scheduling, admissions, and outpatient visits.
- Data Management- Extracted and entered data from various medical records into computerized systems, ensuring accuracy and completeness for case report forms.

Travancore Medical College Hospital, India
Clinical Research Intern – Pharmacovigilance

Jul 2020 - Jun 2021

- Supported physician-led pharmacovigilance studies, coordinating with principal investigators to ensure protocol compliance.
- Assisted in medical monitoring and reported adverse drug reactions (ADRs) using the Vigiflow system under physician supervision.
- Managed data collection and entry, performing quality checks to maintain data accuracy and integrity.
- Experience in using the web-based Vigiflow program from the UMC (Uppsala Monitoring Centre) to report these ADRs.
- The reported ADRs were uploaded to Vigibase, the UMC's worldwide database, using Vigiflow.
- Ensured all study documents were well maintained and in compliance with IRB and GCP standards.
- Organized study-related activities, training sessions, and maintained databases and tracking systems.
- Conducted quality assurance checks, and audits to ensure protocol compliance.

SKILLS

- Expertise in Microsoft Office (Power Point, Excel, Word)
- HIPAA-Compliant Documentation and Record Management.
- HIPAA Compliance.
- Direct data analysis using SAS, SPSS, SEER database, Claims database, ICD-10, HCPCS codes.
- Various epidemiologic study designs, analyzing and applying advanced methodologies in real-world studies.
- Search strategy using Embase, PubMed, Clinicaltrials.gov, Cochrane.
- Profound knowledge in Medical Terminologies, Data entry, mining and extraction.

PROJECTS

- Cost-Effectiveness of Screening for Pre-Diabetes Among Overweight and Obese U.S. Adults: A review.
- The Impact of a Colorectal Cancer Diagnosis on Health Resource Utilization Patterns Among Patients with Hypertension Using Real-World Data.
- A Clear Path Forward: Unveiling the Comprehensive Value of Leqembi® in Alzheimer's Disease - Efficacy, Safety, and Patient Impact. (Ongoing Research)
- Advancing Cardiovascular and Diabetic Healthcare Impact: The Value Dossier Paradigm of Sotagliflozin (INPEFA).

PUBLICATION

Assessment of Predictors of Recurrent Stroke and to Analyze the Significance of Golden Hour among the Stroke Patients in a Tertiary Care Hospital.
