PROFESSIONAL SUMMARY

MPH graduate in Epidemiology with expertise in SAS programming, statistical modeling, and large-scale data management. Skilled in cleaning, analyzing, and interpreting complex datasets to generate actionable insights that advance evidence-based public health initiatives.

EDUCATION

Rutgers School of Public Health

Master of Public Health in Epidemiology

Piscataway, NJ

September 2023 - August 2025

Michigan State University

Bachelor of Science in Neuroscience, Minor in Cognitive Science

East Lansing, MI

August 2016 - May 2020

EXPERIENCE

Applied Capstone Experience Intern

Rutgers School of Public Health

Piscataway, NJ

January 2025 – August 2025

- Led a SAS-based quantitative analysis of nationally representative health survey data, applying statistical modeling to investigate associations between food insecurity and mental health among Kenyan adolescents
- Cleaned, coded, and managed large-scale survey datasets; conducted regression models and mediation analyses to identify and interpret population health trends in Kenya, informing targeted intervention strategies
- Conducted a literature review of 30+ publications and synthesized findings to support the development of analysis plans

Applied Practicum Experience Intern

Rutgers Global Health Institute

Piscataway, NJ

November 2024 – December 2024

- Developed an informational website for a global public health study, improving data accessibility for stakeholders and participants
- Designed outreach flyers for Nairobi County officials and the African Population and Health Research Center (APHRC), increasing community engagement and promoting health education
- Collaborated with research teams in Kenya to ensure outreach materials aligned with research objectives

Patient Administrative Coordinator

Team Rehabilitation

Grand Blanc, MI

July 2021 – July 2023

- Processed 100+ monthly patient referrals, eligibility verifications, and authorizations to optimize scheduling efficiency and reduce administrative barriers to care
- Served as the primary liaison between patients, providers, and insurance companies to investigate and coordinate timely responses to patient billing complaints

Physical Therapy Technician

Team Rehabilitation

Grand Blanc, MI

October 2020 – July 2023

- Instructed 50+ patients daily on therapeutic exercises under the supervision of 5 physical therapists, reinforcing proper form to support recovery
- Tracked and maintained detailed documentation for 100+ individualized treatment plans, ensuring continuity of care

CERTIFICATIONS

Collaborative Institutional Training Initiative

- IRB Administration
- Social/Behavioral/Epidemiologic Research Investigators

December 2024 - December 2027

February 2025 - February 2028

SKILLS

- Statistical Software & Data Analysis:** SAS Programming & Data Analysis, Survey Data Management, Data Cleaning, Quality Control, Regression Models
- Tools:** Microsoft Office Suite (PowerPoint, Excel, Word), Google Suite (Docs, Sheets, Meet, Slides), Canva
- Languages:** English (Fluent), Urdu (Proficient), Hindi (Proficient)
- Research & Public Health:** Literature Reviews, Public Health Research & Epidemiologic Methods, IRB Compliance, Patient Recruitment, Community Outreach, Cross-Functional Team Collaboration
