Summary of Qualifications

- Proven ability to manage and execute complex projects, from designing interactive data visualizations to leading workshops, applying data analysis, prototyping, and UX design principles
- Strong collaboration, , communication, leadership, and problem-solving skills, demonstrated through roles as a Director, Teaching Assistant and Event Coordinator, effectively managing teams and logistics
- Programming & data skills: Java, Python, JavaScript, Html, CSS, R, React, SQL, Git, Microsoft Office, Google Workspace
- Design/Creative skills: Tableau, Figma, Looker Studio

Education

University of Washington, Seattle

June 2025

- Bachelor of Science, Human Centered Design and Engineering (HCDE); Data Science Minor
- Relevant Coursework: User-Centered Design, Information Visualization, User Research, Interactive Systems Design and Technology, Human Data Interaction, Foundational Skills for Data Science, Organizational Teamwork

Experience

Health Director | iDTech

May 2025 – Aug 2025

- Maintained and audited weekly medication check-in rosters and daily medication schedules for 60-100 students per week, ensuring all entries matched prescription labels and were legally and safely check-in ready
- Administered and documented up to 30 medications and procedures daily, logging date, time, student name, medication name, dosage, and reason with 100% accuracy
- Served as primary point of contact for health-related issues by administering first aid, ensuring the safety of campers and staff, and coordinating with parents, staff, and leadership to resolve incidents and document outcomes accurately
- Oversaw camp activities and staff execution, proactively identifying and resolving issues, supporting team performance, and maintaining high standards of student experience and safety

ENGR 106 Teaching Assistant | UW College of Engineering

Oct 2024 – Jun 2025

- Managed course logistics, including scheduling and material procurement, ensuring smooth weekly workshop operations for over 20 Engineering Design Coaches
- Coordinated student progress and provide support plans for students falling behind course milestones
- Handled Canvas and Fusion management systems to ensure accurate workshop schedules and deliverable grading for around 100 first-year engineering students per quarter
- Communicated with program stakeholders regularly to resolve issues, ensuring efficient workflow and positive experiences

Engineering Design Coach | UW College of Engineering

Mar 2023 – Jun 2025

- Created and facilitated a weekly 2-hour workshop focused on UI/UX, guiding students through the process of designing and prototyping a mobile app in Figma, effectively communicating key design and usability principles
- Selected as a Returning Engineering Design Coach, mentoring new coaches on workshop development, providing feedback, and leveraging leadership and project management skills to enhance the program's effectiveness

Academic Projects

ElectriViz | Data Visualization

Feb 2025 – Mar 2025

- Collaborated with team to create an interactive Tableau dashboard to visualize electric vehicle ownership trends across Washington State using publicly available data
- Designed county-level heatmaps, electric range breakdowns, and charging infrastructure comparisons to support spatial and technical analysis
- Focused on clear communication of findings through layered filtering and user-friendly data presentation

Gun Violence Data Analysis

Nov 2024 – Dec 2024

- Conducted an independent data analysis project using Python and Jupyter Notebook, exploring 2023 trends in mass shootings and school-related gun violence using datasets from the Gun Violence Archive
- Cleaned, filtered, and merged multiple datasets to focus on incidents with fatalities or injuries, resolving overlaps between school and mass shooting cases
- Performed descriptive, comparative, time, and geographic analyses to identify temporal patterns and regional hotspots
- Created interactive data visualizations including bar charts, line plots, and geospatial heatmaps to present findings
- Generated actionable insights on seasonal spikes and regional disparities in incidents to support prevention efforts

Additional Experience

Event Coordinator | Pakistani Student Association, UW

Aug 2023 – Jun 2025

- Coordinated and executed 5-8 cultural and social events per quarter, managing logistics, budgeting, and outreach to foster community engagement and cultural awareness on campus
