<http://linkedin.com/in/ahima-kaul-865201182/>

OBJECTIVE

I am seeking full-time or internship opportunities (available to join immediately) where I can use my experience in Business Analytics, along with my background in Workday HCM, Integrations, and Reporting. With over 4 years of hands-on experience in Workday, Skilled in integrations (EIB), custom reporting, calculated fields, XSLT, as well as tools like Excel, Power BI, and Tableau. I am eager to apply my technical and analytical expertise to create effective solutions, support business growth and add value to the organization.

CORE COMPETENCIES

- Workday HCM
- Workday Reporting [Standard, Advanced, Custom, Matrix, BIRT]
- Workday Integration - EIB Inbound/Outbound
- Calculated Fields
- XML, XSLT, Web Services
- EIB/ PYTHON Load
- Workday Security
- Advanced Excel
- Tableau
- Data Analytics
- Python (core)
- User Acceptance Testing / Regression Testing
- MS Office, PowerPoint, Word Excel
- Business Process
- Agile Scrum Project Management

IDE / Editors / Tools: Workday, Anaconda, Langchain, Pinecone, Visual Studio Code, Jupyter Notebooks, Google Collab

EDUCATION

Georgia State University, J. Mack Robinson College of Business

Atlanta

Master's in information system - AI for Digital Innovation

August 2026

Relevant Coursework: Data Programming using Python, Advanced AI for Business, Data Analytics for Business Innovation.

Birla Institute of Technology and Science, Pilani WILP

India

Master of Business Administration - Business Analytic

March 2024

Relevant Coursework: Managing people & organization, Advanced statistical methods, Foundations of data science, Marketing, Predictive analytics, Operations management

Chandigarh University

India

Bachelor of Engineering - Computer Science

June 2020

Relevant Coursework: Fundamentals of Computing, Database Management System, Information Systems, Programming

EXPERIENCE

Computer Information System - J. Mack Robinson College of Business

Atlanta

Graduate Research Assistant

August 2025

- Conducted research on reward-based crowdfunding models by analyzing **Kickstarter projects**.
- Manually labeled and categorized **1,000+ crowdfunding reward descriptions** (quantity-restricted rewards) into three categories: Price Discount, Limited Edition, Early Access.
- To support ongoing faculty research, I helped with **data gathering, organizing, and publication evaluations**.
- Prepared **research notes, reports, and presentation** materials summarizing findings.
- Collaborated with faculty and research team members to improve research methods.
- Provided general academic support, **maintaining project documentation, scheduling, and contributing to research publications where applicable**.

Uber - Application Operations Managed Services Engagement

Nov 2022 - Dec 2024

- **Designed and deployed 20+ custom integrations (EIBs), reports, and XSLT transformations**, ensuring client-specific output formats and reducing manual processing time.
- **Converted 50+ simple reports into advanced reports** using calculated fields, filters, sub-filters, and related business objects, improving reporting efficiency and enabling stakeholders with deeper insights.
- **Developed compensation reporting solutions** (budget allocation, bonus, stock, and planning lists) that supported compensation cycles for business and HR leadership.
- **Configured and maintained 100+ Workday HCM objects** (supervisory orgs, cost centers, job profiles, job families, and locations), ensuring accurate org structures and streamlined operations.
- **Provided post-rollout production support** by resolving **200+ Workday support tickets** within **SLA compliance**, while leading knowledge transfer and training sessions that reduced onboarding time.
- **Collaborated in Agile methodology (stand-ups, sprint planning, retrospectives)**, contributing to on-time delivery of sprints with **zero critical production defects**.
- Honored twice with **Sport Performance** and **Champion Team awards** in quarterly recognition programs, highlighting consistent high performance.

COGNIZANT TECHNOLOGY SOLUTIONS
Workday Analyst

India

Medtronic - Workday implementation

Feb 2021 - Nov 2020

- **Led full Workday implementation lifecycle** including requirements gathering, analysis, design, development, testing, deployment, and post-migration support, ensuring seamless project delivery.
- **Built custom reports and integrations (EIB, Core Connectors)** leveraging calculated fields, document delivery, XSLT transformations, and SOAP web services to meet complex client requirements.
- **Monitored daily processes and resolved ServiceNow tickets**, delivering permanent fixes and reducing recurring issues.
- **Performed compliance audits SOX** - (Monthly, Quarterly, Semi- Annually, Annually) on Reports/ Integrations/ Business processes/ Calculated fields, **regression testing for Workday releases (2021 R2 & 2022 R1), and code/unit quality checks** using commercial test management HPQC tool, ensuring **100% audit readiness and defect-free releases**.
- **Collaborated across functional teams** to validate deliverables and optimize solutions, contributing to smooth deployments and improved stakeholder satisfaction.

DIALABANK
Digital Marketing Intern

India

June 2020 - Nov 2020

- Online Marketing.
- Search Engine Optimization [off page and on page].
- Blog posting, Article posting, Advertisement, Website building.
- Video stream.
- WordPress.

ACADEMIC PROJECT

Predictive analytics for error generated from integrations

- Applied K-Means clustering to categorize and prioritize system alerts by error type, severity, and integration origin.
- Enabling the team to focus on the most problematic ones and address underlying causes effectively.
- Improved proactive issue resolution, reduced repetitive operational overhead, and enhanced overall productivity.

Optimizing HCM through Advanced Analytics and Strategic Management

- Using quantitative methods to optimize HCM to increase operational effectiveness and facilitate strategic decision-making by providing actionable insights from comprehensive reporting and predictive models.

GenAI-based automated video solution for Medicaid waiver services applications

- An automated short-form video system powered by Generative AI to address the significant challenge faced by families and people with intellectual and developmental disabilities (IDD) navigating Medicaid waivers.
