

Ahmed Burale

+1 7202055016 | catabilar@gmail.com | Denver , CO | [LinkedIn](#) | [Portfolio](#) | [GitHub](#)

Dynamic Data Analyst and Engineer with over four years of experience in transforming data into actionable insights through advanced statistical analysis and data modeling.

Domain/Functional Areas

- Education
- Healthcare
- Financial Services
- Engineering

Key Skills

Data Analysis: SQL, Excel, Power BI, Tableau, data visualization, KPI reporting, trend analysis, stakeholder reporting

Data Engineering Tools: ETL pipelines, data wrangling, data hygiene, Snowflake, schema design, data transformation, batch processing, SSIS, Alteryx

Visualization Platforms: Dashboad development using Tableau, Excel and Power BI

Data Science & Programming: Python (Pandas, NumPy, Matplotlib), R (basic), statistical analysis, hypothesis testing, exploratory data analysis

Backend Development: Java, Spring Boot, REST APIs, MVC architecture, service-layer design, backend logic implementation

Cloud & DevOps: Git, GitHub Actions, basic CI/CD concepts, cloud data access (intro level), deployment support

Database Systems: SQL Server, MySQL, PostgreSQL, stored procedures, views, indexing, relational database design

Professional Experience

Adams-Arapahoe County K-12 Education

Aurora, CO

Data Analyst (Full-Time)

May 2022 - Jun 2025

- Aligned data analytics with institutional goals using SQL, Tableau, and statistical methods.
- Built dashboards for communicating data insights effectively through data storytelling.
- Improved ETL workflows and streamlined data processing to boost data efficiency.
- Collaborated with cross-functional teams to drive operational initiatives.

Skills: Tableau, SQL, Python, Data Story Telling, Effective Communication, ETL, Statistics, Cross-team collaboration, SSIS

Adams-Arapahoe County K-12 Education

Aurora,CO

IT Support (Part-Time)

Mar 2022 - May 2022

- Installed and maintained hardware/software systems to minimize downtime
- Resolved a broad range of technical issues to support district staff.

Skills: Troubleshooting, Technical support, System configuration, User support, Software and hardware maintenance

Open Learning Exchange , Inc

Remote

| Virtual Systems Engineering (Internship)

Feb 2022 - May 2022

- Streamlined QA processes to improve deployment performance and reliability.
- Contributed to the development of Planet Learning, an open-source LMS built with Angular and CouchDB. Engaged in Raspberry Pi-focused projects hosted via the Treehouses GitHub repo.
- Supported QA testing and software enhancements to improve functionality and reliability across OLE learning platforms.
- Applied Angular and Python in system development and quality assurance tasks, strengthening educational technology solutions.

Open Learning Exchange, Inc

Kenya

Lead Teach Genius (Full-Time)

Oct 2013 - Apr 2016

- Led system evaluations and integrations to boost compatibility by 25%.
- Enhanced system capacity and increased user satisfaction.
- Delivered data-driven insights for program improvement.

Skills: System integration, Team coordination, Data-driven decision support, Technical training, Offline learning system setup (Planet Learning Toolkit), Open-source tool integration, Intranet network setup for remote learning, Raspberry Pi server deployment and configuration

Projects

Executive - K-12 Education [Project Link](#)

[Python / EDA / Pandas / Matplotlib / Seaborn]

May 2024 - May 2024

- Developed an analytical framework to examine student performance and demographics, uncovering trends and correlations in achievement, attendance, and demographics. This project informs educational strategies and interventions aimed at improving student outcomes by providing actionable insights.

Healthcare Data Analysis and Predictive Modeling - Health [Project Link](#) [Presentation Link](#)

[Python, Pandas, Matplotlib, Seaborn, Scikit-learn, Data Cleaning, Exploratory Data Analysis, Feature Engineering, Machine Learning]

May 2024 - May 2024

- This project analyzes synthetic healthcare data and builds a machine learning model to predict test results based on various factors such as age, gender, and medical condition. It includes data cleaning, exploratory data analysis, feature engineering, correlation analysis, and model building using

Sales Analysis - Sales [Project Link](#) [Presentation Link](#)

[ETL, Power Query, Power Pivot, DAX, Data Modeling, Sales Analytics, Financial Reporting, Report Design]

Oct 2023 - Oct 2023

- This project focuses on creating comprehensive customer performance and financial reports to evaluate sales activities and financial performance. It includes generating reports to compare market performance against sales targets and creating Profit and Loss (P&L) reports by fiscal year, markets, and

Certifications

- Power BI - Codebasics**
Issued on: Mar 2025 [Certification Link](#)
- Python For Data Professionals - Codebasics**
Issued on: Jan 2024 [Certification Link](#)
- Advanced SQL for Data Engineering - 365 Career/Udemy**
Issued on: Oct 2023 [Certification Link](#)
- HST.953x: Collaborative Data Science for Healthcare - edx**
Issued on: Jan 2024 [Certification Link](#)
- Python for Data Science, AI & Development - Coursera**
Issued on: Jan 2023 [Certification Link](#)

Education

Metropolitan State University of Denver	USA
BS - Computer Engineering	Aug 2022 - Present
UoPeople	USA
BS - Computer Science	Jul 2022 - Jan 2024
UoPeople	USA
MS - IT	Aug 2024 - Present
Community College of Denver	USA
Associate - Applied Science	Aug 2018 - May 2021
Kenyatta Unviersity	Kenya
Associate - Applied Science in Nutrition & Health	Jun 2012 - Jun 2014
ABMA - UK	Kenya
Associate - Arts and Science in Community Development	Jan 2007 - Jan 2008
UoPeople	USA
Certificate - Data Science	Aug 2023 - Dec 2023
