PROFESSIONAL SUMMARY

Data-driven professional with a solid foundation in SQL, Python, Power BI, and Tableau, recognized for expertise in data transformation and collaboration with stakeholders. Launched FleurLune, a thriving Shopify beauty brand, focusing on brand development, customer experience, and performance analytics. Proficient in translating complex data into strategic initiatives and managing cross-functional teams to deliver significant outcomes.

EXPERIENCES

E-commerce Manager & Founder

FleurLune | 2025 - Current

- Launched and grew FleurLune, a Shopify-based Health & Beauty retailstore, overseeing everything from domain setup and email integration to store design and customer customization.
- Curated a branded product catalog by sourcing premium dropship items, establishing pricing strategies balancing affordability with sustainable margins.
- Built customer trust by authoring return/refund policies and integrating subscription and review systems, fostering brand loyalty.
- Produced marketing assets—including banners, logos, and businesscards—optimized for ad platforms, enhancing brand identity.
- Executed SEO and digital marketing strategies, improving visibility and driving targeted traffic.
- Cleared operational bottlenecks using analytics-driven decisions to refine product selection, promotions, and pricing.

Marketing Data Analyst (Hybrid)

US Arabian Perfume | 04/2024 - Current

- Designed and maintained Power BI dashboards to monitor KPIs such as campaign ROI, conversion rates, and engagement.
- Utilized SQL to extract and analyze large datasets, identifying patterns that improved targeting and segmentation.
- Supported marketing technology rollouts using Agile/Waterfall, ensuring smooth adoption of analytics tools.
- Created process documentation and visual workflows to enhance cross-team understanding.
- Ensured compliance with GDPR/CCPA and implemented security protocols for SQL-stored data.
- Partnered with marketing, sales, and IT teams to translate business objectives into data-driven strategies.
- Provided account setup assistance and managed user access to platforms.
