

PRIYA DHARSHINI ALLAPURAM

Fairfax, VA | +1 571-567-0498 | raopriya4488@gmail.com | [LinkedIn](#)

PROFESSIONAL SUMMARY

Versatile and motivated Junior AI/ML Engineer with hands-on experience in developing machine learning pipelines, preprocessing real-world datasets, and deploying AI solutions using Python, SQL, and Docker. Adept at transforming theoretical AI models into practical implementations using industry tools. Background includes cloud environments (AWS), prompt engineering, and experience with LLMs, deep learning, and model evaluation. Authorized to work in the U.S. without sponsorship.

CORE TECHNICAL SKILLS

- **Languages:** Python, SQL, TypeScript, Bash, Java (Basic), JavaScript (Basic)
- **AI/ML Frameworks:** Scikit-learn, TensorFlow, Keras, PyTorch, LangChain, Hugging Face
- **Data Tools:** Pandas, NumPy, Power BI, Excel, OpenCV, MediaPipe
- **Model Lifecycle:** Data Cleaning, Feature Engineering, Evaluation, Deployment
- **Cloud & DevOps:** AWS (EC2, Lambda, S3), Git, Docker, REST APIs
- **Other:** Prompt Engineering, LLM Evaluation, Documentation, Agile, GitHub
- **Certifications:** **IBM Generative AI Engineering Specialization** – Coursera | **NVIDIA Generative AI LLMs Associate** – NVIDIA | AWS Certified Cloud Practitioner | SQL for Data Analytics (Mode Analytics) | **Machine Learning Specialization** – (Coursera)

EXPERIENCE

AI/ML Projects– Independent Researcher

Remote | Jan 2025 – Present

- Built and validated deep learning models (LSTM, CNN) for image classification and text tasks.
- Preprocessed large datasets, handled missing values, and tuned hyperparameters.
- Evaluated LLMs for factual accuracy, tone, and bias, and suggested prompt optimizations.

Machine learning Intern – Automation Systems

LGMVIP | May 2023 – Jul 2023

- Developed Python scripts for transforming simulation data into analysis-ready formats.
- Integrated APIs and automated data handling pipelines.
- Maintained concise documentation for internal stakeholders.

AWS Student Coordinator

Vidya Jyothi Institute of Technology | Aug 2020 – May 2023

- Built AWS Lambda automation flows for managing infrastructure labs.
- Conducted workshops on cloud scripting, monitoring, and visualization with Power BI.
- Supported peers with academic cloud projects and documentation.

PROJECTS

LLM Prompt Evaluation Dashboard

- Tools: Pandas, Excel, Lang Chain
- Evaluated GPT-based LLM outputs using custom rubrics; developed dashboards to monitor performance metrics.

AI Virtual Mouse & Keyboard using Gestures – GestVox

- Tools: Python, OpenCV, MediaPipe
- Built a real-time virtual interface to emulate a mouse and keyboard using hand gestures.

Emoji Prediction using LSTM and GloVe

- Tools: Keras, GloVe Embeddings
- Built a sentiment classification model using LSTM, achieving 89.5% accuracy.

Dockerized ML Pipeline for Simulation Data

- Tools: Docker, Pandas, Scikit-learn
- Built a containerized pipeline for preprocessing and model evaluation of manufacturing data.

EDUCATION

Master of Science in Computer Science

George Mason University, Fairfax, VA (Aug 2023 – May 2025)

Bachelor of Technology in Artificial Intelligence

Vidya Jyothi Institute of Technology, India (Jul 2019 – Jul 2023)
