

Aijaz Ahamed Khan A

Data Scientist | aijaztech11@gmail.com | +1 (682) 235-7066 | LinkedIn

Summary:

Data Scientist with 4+ years of experience designing, developing, and deploying end-to-end data-driven solutions using **Python, R, SQL, Machine Learning, Deep Learning, Natural Language Processing (NLP), Generative AI, Computer Vision, and Cloud platforms (AWS, Azure, GCP)**. Skilled in building scalable **ETL pipelines, predictive models, recommender systems, and business intelligence dashboards** to improve decision-making and operational efficiency. Hands-on expertise in **TensorFlow, PyTorch, Scikit-learn, Pandas, NumPy, Tableau, Power BI, and Big Data ecosystems (Spark, Hadoop)**. Experienced in **MLOps, CI/CD for ML, API deployment, and version control (Git, GitHub, Docker, Kubernetes)**. Strong background in applying **statistical modeling, A/B testing, and data visualization** to extract insights and deliver measurable business value.

Skills:

- Programming & Data Science:** Python, R, SQL, Java, Scala, MATLAB, SAS
- Machine Learning & AI:** Scikit-learn, TensorFlow, PyTorch, XGBoost, LightGBM, CatBoost, OpenAI APIs, Hugging Face Transformers, LLMs
- Data Wrangling & Processing:** Pandas, NumPy, Dask, Spark, Hadoop, Databricks, Airflow
- Deep Learning & NLP:** CNNs, RNNs, Transformers, BERT, GPT, SpaCy, NLTK, LangChain, OpenAI GPT models, LLaMA
- MLOps & Deployment:** MLflow, Docker, Kubernetes, FastAPI, Flask, Git, Jenkins, CI/CD, Kubeflow
- Cloud Platforms:** AWS (S3, SageMaker, Redshift, Glue, Lambda), Azure (Data Factory, Synapse, ML Studio), GCP (BigQuery, Vertex AI, Dataflow)
- Visualization & BI Tools:** Tableau, Power BI, Matplotlib, Seaborn, Plotly, Looker
- Databases:** MySQL, PostgreSQL, MongoDB, Cassandra, Snowflake, BigQuery
- Other Tools:** Excel, Jupyter, VS Code, GitHub, Jira, Confluence

Education

- Masters in Computer and Information Sciences from University of North Texas – Denton, TX

Certifications

- Advanced Python Programming** – University of Michigan (Coursera)
- ML & Big Data with R** – Prag Robotics
- Published Paper: Blockchain E-Voting** – ICA5NT 2023, European Chemical Bulletin (Scopus-indexed)
- Virtual AI Experience** – Cognizant
- Developer Simulation** – Accenture
- Cybersecurity Workshop** – IIT Kharagpur
- AWS Certified Cloud Practitioner** – Amazon Web Services
- AWS Certified Solutions Architect – Associate** – Amazon Web Services
- Google Cloud Digital Leader** – Google
- Oracle Certified Java SE 11 Developer** – Oracle

Professional Experience

Data Scientist

NVIDIA | Sep 2024 – Current

- Developed and deployed **generative AI and LLM-based solutions** using **OpenAI APIs, LangChain, and Hugging Face models**, improving response accuracy by **35%**.
- Built **NLP pipelines** for text classification, summarization, and sentiment analysis using **BERT, GPT, and Transformers**, increasing automation efficiency by **40%**.
- Designed and maintained **ETL pipelines** with **Airflow, Spark, and Databricks**, reducing data processing time by **45%**.
- Applied **A/B testing, hypothesis testing, and statistical models** to evaluate new product features, achieving a **20% improvement in user engagement**.
- Implemented **MLOps with MLflow, Docker, and Kubernetes** for CI/CD of ML models, improving deployment frequency by **30%**.
- Collaborated with cross-functional teams to create **interactive dashboards in Tableau and Power BI**, enhancing business reporting speed by **50%**.

Data Analyst

Microsoft | Aug 2020 – Jul 2023

- Built and deployed **machine learning models** for predictive analytics and recommendation systems, improving forecast accuracy by **28%**.
- Processed and analyzed large-scale datasets using **Python, Pandas, Spark, and SQL**, reducing manual reporting efforts by **40%**.
- Applied **deep learning models (CNNs, RNNs, TensorFlow, PyTorch)** for image recognition and time-series analysis with **92%+ model accuracy**.
- Developed and automated **data pipelines** on **AWS (S3, Glue, Redshift) and Azure (Data Factory, Synapse)**, improving scalability by **35%**.
- Designed **business intelligence dashboards** in **Tableau and Power BI**, reducing reporting time by **25%**.
- Conducted **feature engineering, model tuning, and cross-validation**, boosting ML model performance by **20%**.
- Maintained **data governance and data Assurance quality frameworks**, ensuring **99% accuracy in business - aligners**.
