Professional Experience

BUSINESS ANALYST | FirstBank | Lakewood, CO | 2022 - Present

- Partnered with cross-functional stakeholders (Risk, Finance, Operations, Infrastructure, IT, Compliance) to understand business needs and streamline their workflows.
- Supported enterprise PMO programs from discovery to implementation, ensuring delivery of initiatives aligned with strategic objectives.
- Drove Agile delivery using Jira, Confluence and draw.io - managed backlogs, created process maps, and tracked sprint progress.
- Facilitated requirements workshops and authored epics, user stories, and functional specifications for digital banking products.
- Acted a key liaison between business sponsors and technical teams, ensuring transparency and delivery against business intent.

TECHNICAL ACCOUNT MANAGER | Rabbit Digital Branding Solutions | Hyderabad, India | 2019 to 2020

- Led a cross functional team of 5 to deliver digital transformation projects for consumer brands (e.g.. Dukes Waffly).
- Conducted business analysis and built functional frameworks that improved campaign tracking and ROI by 15%.
- Collaborated with UI/UX teams on consumer- facing web applications, ensuring alignment with business needs.
- Analyzed Tableau reports to identify market fluctuations, providing actionable recommendations to leadership.

TECHNICAL BUSINESS ANALYST | Intellibot.io | Hyderabad, India | 2018 to 2019

- Managed multiple Robotic Process Automation (RPA) implementation projects using Intellibot. Intellibot is a powerful RPA Platform that is designed to simplify the lifecycle of RPA deployments at every step of the process.
- Conducted gap analysis and developed data models to optimize client processes.
- Created SQL scripts for data validation and reporting, enabling accurate tracking of automation performance.

- Partnered with RPA developers to design and deliver stable automation solutions.

TECHNICAL ACCOUNT MANAGER | Tekskills Inc | Princeton, NJ | 2016 to 2018

- Managed accounts with enterprise clients (Genpact, Brillio, Stefanini), ensuring smooth delivery IT solutions.
- Conducted business requirement workshops and authored BRDs and use cases.
- Facilitated Agile ceremonies, including sprint planning, backlog grooming and retrospectives.
- Improved requirement traceability and reporting, leading to faster delivery and stronger client trust.

MARKETING DATA ANALYST | Radio Mirchi | Hyderabad, India | 2013 to 2015

- Conducted market research and qualitative analysis of radio programming, influencing programming strategy.
- Designed data models to analyze music preferences and social media trends, driving a 10% increase in audience engagement.
- Managed digital ad campaigns, optimizing ROI through Google AdWords and social retargeting.

GRADUATE INTERN | Franklin Templeton | Hyderabad, India | 2010

- Assisted with financial reporting, preparing monthly and quarterly client report under tight deadlines.
