

Ajoke' Simpson

Senior Clinical Data Management Expert

■ (202) 578-6450 | ■ ajokaysimpson@gmail.com | ■ linkedin.com/in/ajokesimpson

Professional Summary

Results-oriented Senior Clinical Data Management professional with extensive expertise in clinical trial processes, data operations, biometrics, and regulatory compliance. Recognized for consistently meeting project timelines and quality metrics while ensuring compliance with ICH-GCP, FDA, and CDISC standards. Skilled in database design, project oversight, and cross-functional collaboration with CROs, sponsors, and vendors. Known for implementing process improvements that enhance workflows, optimize efficiency, and deliver successful trial outcomes.

Key Skills

Data Management: CRF/eCRF design, query management, SAE & third-party data reconciliation, database lock & archival

Programming & Analytics: SAS (Base, Macros, SQL), R, Python, Tableau, Spotfire, MS Excel (advanced functions, pivot tables, VBA)

Systems Expertise: Medidata Rave, Oracle Inform, RedCap, OpenClinica, Veeva Vault CDMS/eTMF, Medrio, TrialMaster, Salesforce

Compliance & Standards: CDISC (CDASH, SDTM, ADaM), ICH-GCP, FDA 21 CFR Part 11, Pinnacle 21

Project Management Tools: CTMS, JIRA, Confluence, MS Project, Smartsheet, risk-based monitoring tools

Therapeutic Areas: Cardiology, Oncology, Neuroscience, Endocrinology, Infectious Disease, Pulmonology, Rheumatology, Ophthalmology, Gastroenterology, Hematology, Dermatology, Nephrology, Medical Devices, Pain Management

Work Experience

Senior Clinical Data Manager | Alira Health | Remote (*Feb 2024 – Aug 2024*)

- Designed and implemented data management strategies to optimize study builds, resulting in high-quality databases and improved outcomes.
- Developed Data Management Plans (DMPs), transfer agreements, and specifications to align with regulatory requirements.
- Built user-friendly eCRFs in Zelta EDC, ensuring compliance with ICH-GCP and CDISC standards.
- Oversaw data flow activities and delivered audit-ready databases on time and within budget.
- Provided mentorship and training to team members on query management and best practices.

Senior Clinical Data Manager | TFS Health Science (Duke Clinical Research Institute) | Remote (*Mar 2020 – Jun 2023*)

- Directed data management activities across CROs and vendors, ensuring compliance with GCP, GMP, and GLP standards.
- Oversaw CRO deliverables (IRT, Safety, Lab, EDC) and ensured eTMF inspection readiness in Veeva Vault.
- Partnered with safety teams on AE/SAE reconciliation to support pharmacovigilance and reporting.
- Streamlined database lock preparation and data cleaning, reducing query resolution time by 30%.
- Collaborated with operations, biostatistics, and regulatory teams to ensure seamless data integration across trial phases.

Lead Clinical Data Manager (Contractor) | American College of Radiology | Remote (*Jun 2019 – Feb 2020*)

- Led data operations for multicenter trials, ensuring regulatory compliance and timely deliverables.
- Designed eCRFs, programmed edit checks, and developed real-time monitoring reports.
- Standardized QC initiatives, improving reconciliation and system setup processes.
- Trained and mentored junior staff, serving as SME and liaison to study leadership.

Clinical Data Manager II (Contractor) | Georgetown University | Washington, DC (*Mar 2018 – Jun 2019*)

- Led data management operations for multiple complex trials, mentoring junior staff and ensuring regulatory compliance.
- Oversaw query management and partnered with sites and vendors to improve data cleaning efficiency.
- Conducted SIV trainings and supported audits, QA reviews, and radiology data reconciliation.

Lead Clinical Data Manager | Musculoskeletal Clinical Regulatory Association (MCRA) | Washington, DC (*Aug 2013 – Jun 2016*)

- Managed database studies supporting medical device trials, overseeing integrity, compliance, and submissions.
- Designed and tested eCRFs, created SOPs/DMPs, and performed clinical data reviews.
- Tracked KPIs and maintained project schedules to monitor study progress.
- Supported regulatory submissions (510(k), IDE, PMA, IND, BLA, NDA).

Education & Certifications

- Virginia State University – Completed 90 credit hours toward B.S. degree
- Good Clinical Practice (NIDA Clinical Trial Network)
- Medidata Classic Rave EDC Essentials
- Oracle Inform 6.0 Site User Certification
