Chicago, IL | akankshaabharambe@gmail.com | linkedin.com/in/akanksha-bharambe-25ba2119a | +1 513-550-5546

Education

University of Illinois Urbana-Champaign, MS in Information Management August 2024 – May 2026

- **GPA:** 4.0/4.0
- **Coursework:** Data and Statistical Analysis for Information Systems, Information Modeling, Information Consulting, Database Warehousing and Business Intelligence, Applied Business Research

Cummins College, Pune, B.Tech in Electronics & Telecommunication Engineering August 2018 – May 2022

- **GPA:** 3.53/4.0
- **Coursework:** Data Structures, Software Testing & Quality Assurance, Object-Oriented Programming

Work Experience

Software Engineering Co-op, Siemens Healthcare, Hoffman Estates, IL Jun 2025 – Present

- Built motion control software in **C/C++** and **Embedded C** for CT -PET/SPECT scanners used in 10,000+ hospitals.
- **Investigated 5+ field issues** and contributed to early-stage root cause analysis and resolution.
- Re-architected cross-tool service logs in C++, improving diagnostics and **reducing troubleshooting time by 15%**.
- Authored and validated **50+ test cases** using HP ALM for C/C++, **ensuring 95% coverage across modules**.

Software Engineer Associate, Siemens, Pune, India Jul 2022 – Jul 2024

- Integrated Siemens products with IBM Maximo and Salesforce CRM, **reducing data retrieval time by 30%**.
- Redefined global asset tracking with AWS, MySQL, and MongoDB for improved real-time data access.
- Automated IT operations with CI/CD pipeline, **reducing manual tasks by 25%** and boosting infrastructure reliability.
- Enhanced QA pipelines using Jest, Cucumber, Selenium, and Salesforce Apex to **cut defects by 30%**.
- Refined Siemens data model, increasing consistency and **reducing service discrepancies by 20%**.

Software Engineering Intern, Atos India Pvt. Ltd., Mumbai, India Sep 2021 – Jul 2022

- Constructed an AWS-based cloud solution for PCB quality control, **boosting inspection throughput by 35%**.
- **Custom-trained YOLOv3 model with 95% accuracy** for resistor and capacitor detection on PCBs.

Projects

AI-Driven Budgeting Automation for Ivy League Institutions, SQL | PowerBI Jan 2025 - May 2025

- Designed AI solutions in the Business Intelligence Group to automate budgeting for 3 Ivy League schools, streamlining data extraction and reducing manual effort by 40%.

Predictive Model for Early Detection of Sepsis in ICUs, SQL | Healthcare Analytics Sep 2024 - Dec 2024

- Built a predictive model with 87% AUC-ROC for early sepsis detection, improving ICU risk assessment. Cleaned 40K+ records with SQL, boosting model accuracy by 20% and reducing costs by 15%.

Colon Cancer Detection using InceptionResNetV2, Python | TensorFlow | SQL Jan 2021 – Aug 2021

- Developed an InceptionResNetV2-based deep learning model achieving 99% accuracy in colon cancer detection, analyzed 2,000+ patient records, reduced misdiagnosis rates by 15%.

Alzheimer's Detection, Python|OpenCV|Pandas, NumPy| Scikit-learn Nov 2020 – Dec 2020

- Diagnosed Alzheimer's from MRI scans using Decision Tree classification, achieving 92% accuracy, advancing early detection techniques. Applied feature extraction and scaling, stored the data SQL databases.

Skills

Programming: C++, C, Java, Python, RESTful APIs, SQL, JavaScript, Salesforce Apex, HTML

Tools and IDE: Eclipse (Ubuntu), Visual Studio, Node.js, React, Flask, Salesforce CRM, IBM Maximo, Linux

ML and Analytics: Tensorflow, Scikit-learn, Numpy, Pandas, Keras, PyTorch, ApacheSpark

Cloud and Data: AWS (Lambda, S3, RDS), GCP (BigQuery), MySQL, MongoDB, OracleDB, Snowflake, IBM DB2

DevOps and Test: Docker, GitHub, Git, CI/CD, Gradle, Kubernetes, Jenkins, Terraform, HP ALM

Certifications & Publications

Certified SAFe® 5 Practitioner - Scaled Agile June 2023

German Language - Goethe-Zertifikat B1 Level May 2021

Colon Cancer Detection from Histopathological Images using InceptionResNetV2 -

The International Journal of Analytical and Experimental Modal Analysis, Vol 13, Issue 10

Data Science & Machine Learning Track - 30 Days of Google Cloud. Jan 2021
