

PROFESSIONAL SUMMARY

- Experienced Integration Developer with 3+ years in IT, specializing in designing and implementing robust data and system integrations.
- Expertise in Oracle Integration Cloud (OIC) and Oracle Cloud Infrastructure (OCI), developing API-driven architectures using RESTful and SOAP protocols.
- Proficient in developing OIC solutions using REST and SOAP, with expertise in integration styles like App-Driven, Scheduled Orchestration, File Transfer, and Publish-Subscribe for seamless system communication.
- Strong experience in handling data formats like JSON, CSV, XML, and XSLT, with the ability to build accurate and efficient schemas for seamless data processing.
- Extensive knowledge and hands-on expertise in activities - error handling, notifications, stage actions, looping, working with connections, Domain Value Maps (DVMs), functions, JavaScript libraries, and mapper activities.
- Strong expertise in API security, including certification, authentication, authorization, configuration, and endpoint management.

WORK EXPERIENCE

Software Engineer 1 | Argano Software Ltd, Hyderabad | (2 yrs) August 2021 – July 2023

David Yurman | Oracle Integration Cloud(OIC),Oracle Cloud Infrastructure(OCI) | 40 hrs./week

- Played a pivotal role during the Development phase of the project's sprints, focusing on the advancement of Integration Development. Developed various integrations for Order Management System using Oracle integration tool between Salesforce, Oracle EBusiness Suite(EBS), Narvar, and KWI Unified Commerce Platforms via REST API calls.
- Made use of JavaScript Object Notation (JSON)and Extensible markup language (XML) in the developed integration flows to query and integrate the data from the source to target API's. and also used Postman API to easily explore, debug, and test your APIs while also used to define complex API requests for HTTP, REST, SOAP.
- Proactively addressing support tickets, effectively resolving bugs and issues that arose, ensuring the project's seamless progress and overall success.
- Streamlined and executed comprehensive testing and debugging processes for Integration Development and customizations, ensuring 100% precision and quality, reducing customer support issues by 40%.
- Deploy and manage applications on OCI Compute and Oracle Functions.
- Implemented logging, monitoring, and security in OCI for best practices to achieve 96% Errorless Integrations in cloud environment.

Software Engineer Intern | Argano Software Ltd, Hyderabad | (1yr) August 2020 – July 2021

- Ticket Management | Oracle Integration Cloud(OIC),Oracle Cloud Infrastructure(OCI) | 40 hrs./week
- Worked on Ticket Management POC in which I implemented integration for CRUD Operations to Create, Update, Get, and Delete tickets from MYSQL Database to Customers through Email notification.
- Employed an array of dynamic features including filters, layouts, and bookmarks to craft an engaging user experience.
- Worked in connecting cloud and on-premises applications using integration design patterns to create scalable solutions.
- Worked in configuring various adapters (REST, SOAP, Database, SaaS) to enable secure and efficient data exchange.
- Implemented secure connections using OAuth, Basic Auth, and certificate-based authentication to maintain data integrity.
- I've honed my skills in working with JSON, XML, and other data formats, and I can use XSLT and XPath to transform data between different systems.

SKILLS

- **Languages:** Python, SQL, HTML, JavaScript
- **Database/Tools:** MySQL, Oracle Integration Cloud(OIC), Oracle Cloud Infrastructure(OCI), Workato
- **Other Technologies:** Postman APIs, XML,REST, SOAP, APIs, Authentication, Authorization, End Point Configuration, JSON, GitHub, PowerPoint, Word, Excel, Outlook, Google Sheets

EDUCATION

- **Masters in Applied Computer Science** |Southeast Missouri State University |Cape Girardeau, MO| **May 2025**
Coursework: Applied Programming Language(APL), Artificial Intelligence(AI),Machine Learning(ML), Topics in Database Systems.
- **Bachelor of Technology in Electronics and Communication Engineering** | VNR VJiet | Hyderabad, India | **July 2021**

ACHIEVEMENTS

- **Spotlight Award for Quarter 4** | Argano | 2022

CERTIFICATIONS

- Oracle Cloud Infrastructure AI Fountains(2025)
- Cloud Infrastructure Certified Application Integration Professional(2023)
- Certified Specialist in Oracle Cloud Platform Application Integration(2022)
- Workato Pro1 & Pro2 Certified(2022)
