PROFESSIONAL EXPERIENCE

Clinical Trial Coordinator

Dallas, TX

ICON Strategic Solutions – Providing services to Merck

November 2023- Present

- Work closely with clinical investigators and site staff to ensure proper conduct of the trial.
- Monitor and track subject enrollment, data collection, and compliance with the trial protocol via Spectrum CTMS.
- Manage and maintain trial-related documentation in accordance with regulatory and Merck's standards in Veeva Vault eTMF.
- Ensure compliance with Good Clinical Practice (GCP), International Conference on Harmonization (ICH) guidelines, and applicable regulatory requirements.
- Support regulatory submissions and inspections as needed.
- Collaborate with data management teams to ensure accurate and timely data collection and entry.
- Perform data review activities to ensure data quality and integrity.
- Assist in the management of adverse event reporting and safety monitoring activities.
- Communicate safety-related information to relevant stakeholders.

Clinic Research Coordinator - Team Lead – Medical Safety

Dallas, TX

MARY CROWLEY CANCER RESEARCH CENTER

April 2022 – October 2023

- Identifies compliance issues, monitoring trends, and driving quality improvements for safety and improved monitoring processes.
- Monitors safety data and manages eight sites across multiple phase one studies to improve compliance with the protocol, FDA, ICH, GCP, and collect data efficiently for efficacy and clinical safety monitoring analysis.
- Coordinates new patient referral paperwork and conducts initial consult meetings and completes clinical work up to include patient history and current condition/medications. Receive/reviews provider orders and enters them into the electronic medical record (EMR).
- Communicates effectively with academic detailers and is tasked with reaching out to health systems to assist in patient education and answers medical safety information related questions to various diseases and medical products.
- Liaises with Key Opinion Leaders (KOLs) on various clinical protocols in oncology and reviews site Informed Consent Forms (ICF) to help improve recruitment of subjects which reduces deviations. Obtains data for the Data Safety Monitoring Board (DSMB) for review.
- Collaborates cross-functionally with Clinical Trial Managers (CTM and CRAs), Medical Monitors, and Data Management to update Medical Monitoring Plan, Protocol Amendments to align with primary endpoints of clinical studies, improving safety data collection.
- Reviews trends in eCRF regarding investigational vaccine reactogenicity data for the DSMB and source data verify (SDV) accordingly to analyze for efficacy and safety of the investigational product.
- Maintains up-to-date knowledge of appropriate national and international PV/GCP legislation and guidelines that affect the business.
- Utilized scientific background to train and communicate with KOLs on various clinical study protocols in multiple therapeutic areas mainly oncology-gene therapy.
- Executed clinical trial activities with sites to support protocol and provided updates to CTM and Sponsor Executive Management in a timely manner. Improved recruitment of subjects in the study and data collection for all studies in a fast-paced environment. Conducted site qualification, initiation, on-site monitoring, and site closure-visits according to ICH-GCP, sponsor SOP's, and applicable regulatory requirements.
- Coordinated project meetings and successfully developed relationships with Sponsor Executive Management to collect data.
- Managed and monitored clinical data across multiple clinical studies in the therapeutics area of oncology.
- Utilized scientific background skills to review archives of FDA approved medications and reported adverse events (AEs) to document risk and safety of medications.

Medical Scribe

Sanju Bains

Dallas, TX

January 2019 - December 2021

- Documented lab test results into patient charts
- Recorded diagnosis dictated by a physician and filled out prescriptions.
- Monitored patient medical charts and recognized data discrepancies.
- Executed strategy for signal evaluation (e.g., case-series, literature review, HA/ claims database)
- Discussed various clinical protocols, PK/PD analysis, safety labeling changes and risk evaluation and minimization strategies. Supported Safety input for regulatory safety submissions.

Primary Care Physician and Medical Resident

Kerala, IN

CHAITHANYA NURSING HOME AND SREE NARAYANA INSTITUTE OF MEDICAL SCIENCES

December 2015 - May 2018

- Performed as a medical primary care physician focused on cardiology, patient care management, adverse event monitoring, provided out- patient and in-patient services to patients, provided the initial care to patients presented at the ED, joined the senior consultants in rounds, and in making records of patient care, organized and conducted health camps to improve health access to indigent communities.
- Spent 1 year as a junior resident at the Sree Narayana Institute of Medical Sciences where I conducted seminars on topics in Otorhinolaryngology, attended emergency department duties representing the Department of Otorhinolaryngology, assisted in various surgeries, performed video-laryngoscopy and diagnostic nasal endoscopy, performed foreign body removals, managed students' daily routine and come up with study plan for them.

EDUCATION

Sree Narayana institute of Medical Sciences

Ernakulam, Kerala, India

MBBS Bachelor of Medicine and Bachelor of Surgery

November 2016

PUBLICATIONS AND PRESENTATIONS

- A. Tolcher, X. Wu, J. Zhang, M. Barve, N. Gabrail, A. Valiyil, N. Sayi, C. Germa, C. Qi, L. Chen, S. Yu, J. Yao, X. Zhu. A Phase 1, First in Human, Open-label, Dose Escalation and Dose Expansion Study of TST005 in Patients with Locally Advanced or Metastatic Solid Tumors. 2023 ASCO Annual Meeting, abstract #403840

TECHNICAL SKILLS

- **Technical Skills:** Microsoft Office (Word, PowerPoint, OneNote, Outlook, Teams, Publisher, Access, SharePoint) | Documentation Management| Adobe Acrobat| Case reports/IB/RSI| Document Management
