

AKHILA GUNTUPALLI

Business Analyst

West Haven, CT | (203) 741-8251 | agunt3@gmail.com | [LinkedIn](#)

Summary

- Business Analyst with 3+ years of experience in delivering data-driven insights, leading cross-functional teams, and driving process improvements across healthcare and supply chain industries.
- Led projects using Agile methodologies (Scrum, SAFE), conducting gap analysis, and creating BRDs and FRDs to ensure alignment between business objectives and system implementations.
- Managed and facilitated UAT (User Acceptance Testing) phases to ensure system enhancements aligned with business requirements, resulting in seamless transitions and successful project execution.
- Developed interactive dashboards and reports using Tableau and Power BI, providing actionable insights that improved decision-making and enhanced stakeholder visibility into key performance metrics.
- Utilized Lean Six Sigma methodologies to streamline operations, achieving a 20% reduction in lead times and optimizing supply chain processes for greater efficiency.
- Automated regulatory reporting and compliance processes, reducing manual effort by 40% and enhancing workflow efficiency through collaboration with IT and compliance teams.
- Extracted and analyzed large datasets using SQL, Excel, and SAP-ERP Business Objects to support executive decision-making and optimize business operations.
- Conducted training sessions and workshops to foster a culture of continuous improvement, increasing employee adoption rates for new tools and methodologies by 30%.

Skills

- **Project Management & Methodologies:** SDLC, Agile (Scrum, SAFE), Waterfall, Lean Six Sigma, UAT, Gap Analysis, JIRA, MS Project
- **Business Analysis & Documentation:** BRDs, FRDs, JAD Sessions, Stakeholder Management, Process Modeling, Requirements Gathering
- **BPM Tools:** Lucid Charts, MS Visio, Draw.io, Microsoft Office Suite (Excel, PowerPoint, Word), SharePoint
- **Data Analytics & Business Intelligence:** Tableau, SAP-ERP, Data Visualization (Dashboards, Metrics, Reports), SWOT Analysis, Root Cause Analysis, Risk Assessment
- **Databases & Programming:** MySQL, Python, R, VBA (Excel Automation), Power Pivots, Pivot Tables
- **Process Improvement:** Gap Analysis, Centralized Reporting, Strategic Recommendations, Lean Six Sigma
- **Risk & Change Management:** Risk Analysis, Issue Tracking, Mitigation Planning, Change Management, Impact & Cost-Benefit Analysis, ROI
- **Business Process Knowledge:** Order to Cash (O2C), Procure to Pay (P2P), Record to Report (R2R)

Experience

Kaiser Permanente Business Analyst

Jul 2023 – Present

- Partnered with compliance teams to align business processes with healthcare regulations by conducting gap analysis and documenting workflows using Lucid Charts and MS Visio, ensuring compliance and operational clarity.
- Extracted, analyzed, and interpreted large datasets using SQL, Excel, and SAP-ERP Business Objects to identify non-compliance risks and formulated effective risk mitigation strategies.
- Collaborated with IT teams to implement compliance-related system upgrades, utilizing Agile (Scrum) methodologies, which decreased processing errors by 15% and ensured timely integration of regulatory changes.
- Facilitated cross-functional JAD sessions and workshops to gather requirements for regulatory updates, crafting BRDs and FRDs to guarantee alignment with business objectives.
- Automated regulatory reporting processes using VBA (Excel Automation), significantly reducing manual effort by 40% and enhancing operational efficiency through optimized workflows.
- Led UAT (User Acceptance Testing) phases, ensuring that system enhancements met business requirements, and streamlined the implementation process for successful project execution.

Business Analyst

- Led gap analysis and implemented collaboration tools (Microsoft Teams, Slack), improving team productivity by 25% through Agile (Scrum) methodologies.
- Created BRDs and FRDs for system integration, collaborating with stakeholders via JAD sessions to ensure business alignment.
- Managed UAT phases, facilitating system adoption and gathering user feedback to implement necessary changes.
- Developed Tableau dashboards for real-time insights, optimizing digital platform performance and supporting risk analysis.
- Spearheaded a Lean Six Sigma project to optimize supply chain processes, reducing lead times by 20% and increasing overall efficiency through process improvement techniques.
- Mapped current and future state process flows using Lucid Charts and MS Visio, improving transparency and documentation for all stakeholders involved in supply chain operations.
- Extracted and analyzed large datasets using SAP-ERP Business Objects, generating actionable insights and real-time visual dashboards to support executive decision-making in supply chain management.
- Conducted cost-benefit analysis and ROI analysis for process changes, leading to a strategic decision that resulted in \$500K annual cost savings.
- Facilitated change management activities, developing training materials, user guides, and conducting workshops for over 100 employees, improving adoption rates for new digital collaboration tools by 30%.

Education

University of New Haven, West Haven, CT	Aug 2021 – May 2023
Master’s degree in Business Engineering	
Relevant Coursework: Networking	
Bharath University, Chennai, India	Aug 2016 – Jun 2020
Bachelor’s degree in computer science and technology
