PROFESSIONAL EXPERIENCE

Data Analyst | Python & SQL Development, ETL Processes & Data Visualization

Orange County Government, Orlando, FL

Jul 2021 - Present

- Delivered \$450,000 annual savings by developing interactive Power BI visualizations, leveraging SQL optimization to reduce interpretation time by 25% and enable data-driven decisions.
- Generated \$1,200,000 in operational efficiencies by architecting Snowflake Star Schema warehousing, improving query performance by 60% and establishing clear analytical data relationships.
- Preserved \$3,500,000 in critical data assets through large-scale migration (50TB), implementing robust validation frameworks that maintained 99.99% integrity and controlled significant data loss.
- Achieved \$275,000 processing cost reductions by engineering Python and Spark SQL pipelines, applying advanced validation methods that reduced processing errors by 15%.
- Eliminated \$180,000 in manual labor costs by automating cross-platform data flows with Python Flask and Docker, creating reliable self-healing enterprise data ecosystems.
- Increased predictive value by \$520,000 through enhanced machine learning workflows, improving model accuracy by 18% with comprehensive reproducible validation methods.
- Reduced infrastructure expenses by \$380,000 through strategic Snowflake data organization, implementing efficient lifecycle management that cut storage costs by 30%.

Data Analyst | SQL, Python, Tableau Dashboards & Data Automation Expert

Aug 2017 – Jul 2021

KeyBank, Cleveland, OH

- Identified \$3,200,000 in optimization opportunities through intuitive financial Tableau dashboards, using sophisticated visualization techniques that empowered executives with self-service analytics.
- Pioneered a novel SQL-based auditing system that identified and restored \$750,000 in misallocated funds, leading to a 15% reduction in reporting errors enterprise-wide.
- Accelerated strategic decisions worth \$1,500,00 by implementing efficient Databricks pipelines, transforming batch processing into near real-time analytics for immediate business insights.
- Generated \$1,200,000 additional annual revenue applying machine learning to complex financial data, identifying valuable previously undetected patterns through predictive models.
- Increased marketing ROI by \$200,000 through customer segmentation analysis, applying advanced clustering algorithms that boosted cross-sell conversions by 15%.
- Drove down data error rates by 15% by deploying self-healing data pipelines, which averted potential data failure costs and bolstered cross-functional data reliability across the firm.

Data Analyst | SQL, Python, Machine Learning & Data Governance

Jul 2015 – Aug 2017

Synergy Prep, New York, NY

- Boosted enrollment revenue by \$125,000 through comprehensive educational data mining, uncovering actionable student insights that directly influenced curriculum and improved retention strategies.
- Championed the development of a data-driven early alert system, enabling advisors to engage with 75+ at-risk students per semester, improving overall student success.
- Catalyzed a 20% rise in student applications by restructuring educational marketing data through multi-touch attribution modeling and optimizing conversion pathways for heightened enrollment effectiveness.
- Prevented \$110,000 in regulatory compliance penalties through systematic data-driven audit procedures, ensuring complete regulatory adherence while extracting valuable curriculum insights.
- Reduced reporting costs by \$65,000 implementing scalable AWS S3 integration architecture, accelerating reporting by 35% while enhancing data security through automated controls.

EDUCATION

Master of Science in Business Analytics & Information Systems, Data Science | University of South Florida, Tampa, FL

Bachelor of Science in Electrical & Computer Engineering | New York Institute of Technology (NYIT), New York, NY

SKILLS

SQL & Query Optimization | Python Programming | Data Visualization | ETL/ELT Pipeline Development | Cloud Platforms (AWS/Azure/GCP) | Machine Learning | Data Warehousing | Big Data Technologies | Data Governance | API Integration | Financial Analysis | Customer Segmentation | Process Optimization | Predictive Modeling | Cost Reduction | Revenue Generation | Root Cause Analysis | Compliance & Audit | Cross-Functional Collaboration | Snowflake | Tableau | Power BI | Databricks | Docker | Apache Airflow | BigQuery | R Studio | PySpark | Statistical Analysis | Data Mining **Tools:** Tableau | Power BI | Looker Studio | SQL (MySQL, PostgreSQL) | Python | R Studio | Apache Spark | Hadoop | Snowflake | AWS | Azure | GCP | Databricks | MongoDB | Oracle | Apache Cassandra | Docker | Apache Airflow | DBT | Excel | BigQuery | PySpark | JAVA | JavaScript | Scala | DAX | MLflow
